WAITING FOR WIND.

MEANTIME NEW YORK ENGAGES IN GETTING SCARED.

Alleged Close Watchers Firm in the Belief There is Little to Choose Between the Boats in a Drift.

But They Think the Shamrock is a Thoroughly-Dangerous Craft in Anything Else Than a Drifting Match.

Ted Sloan Thrown and Injured at London—Races at Lexington. Reiff Wins the Feather Plate.

(ASSOCIATED PRESS NIGHT REPORT.) NEW YORK, Oct. 6.—This has been a day of rest on board the international racers. The Columbia was towed from Sandy Hook to Bay Ridge to get her out of any danger from the northeast. The Shamrock remained at her anchorage at the Hook, her people seemingly willing to take the chances. The wind blew up pretty fresh about 6 o'clock, but there was nothing to threaten harm to a yacht so well protected by tenders and tugs, to say nothing of the powerful Erin.

The feeling on both sides is one of confidence. A sailor thinks he will win. Sir Thomas Lipton has a nice little corner in the Erin, all ready for the cup. The public is in doubt, and it must be said that there is a feeling of indecision among the expert yachtsmen. The two days of drifting have furnished nothing on which to base opinions. They have, however, seemed to strengthen the belief that the Shamrock is a thoroughly dangerous proposition. This is now a well-grounded opinion, and if the two days of light airs have done anything, they have shaken the confident feeling that has prevailed among the backers of the Columbia.

Those who have watched most closely every movement of the two yachts are firm in the belief that the Shamrock is a thoroughly dangerous proposition. This is now a well-grounded opinion, and if the two days of light airs have done anything, they have shaken the confident feeling that has prevailed among the backers of the Columbia.

WEATHER EXPECTED TOMORROW, JOHN R. SPEARS SAYS TONIGHT.

"The chances made in ballast in the two racers before they were measured fully account for everything that was definitely observed in the work of the two boats, as considered apart from the work of the two skippers. The Shamrock was lightened until she was two feet shorter on the waterline. The Columbia was weighed in with several inches longer. The Shamrock now displaces less water than before by several hundred cubic feet, while the Columbia displaces a little more—1700 pounds. So the two were brought closer together in their speed in light airs.

"But that the Shamrock is yet inferior to the Columbia in light air and windward work is proved by one undisputed fact, if by no other. Whenever the Shamrock has been near the Columbia in two trials and windward work was in the picture, the latter has striven with all his might to break tacks, to get off on a different tack, where he might hope for better wind than that which he had beside the Columbia. Will any yachtsman say that the able and experienced skipper of the Shamrock would be guilty of taking such chances? If his boat is slower he may take chances, because after all he is a sailor, and a sailor's swift boat, he will surely be beaten.

"As to work down the wind, nothing need be said. The Columbia has outfoiled the Shamrock in both trials. As to the effect of the changes in ballast on the two yachts, enough has been said already. Tomorrow's race is weather work. The Shamrock, will be a race with wind a-plenty, and then we shall have facts. But every yachtsman knows that when you lift ballast from the foremast, the yacht to make her fit for light airs, she will no longer be as good as before in a gale."

"WEATHER BUREAU AGAIN. (ASSOCIATED PRESS NIGHT REPORT.) NEW YORK, Oct. 6.—The local weather bureau today gave out the following: "WASHINGTON, Oct. 6.—Saturday will open with rain and strong winds from the north. The weather will be clear, and the wind will diminish in force by the afternoon, with fair weather."

"LATEST ABOUT WIND. (ASSOCIATED PRESS NIGHT REPORT.) SANDY HOOK, Oct. 7, 2:40 a.m.—The wind is from the north, moderate breeze, about twelve miles an hour.

"CHOYNSKI AND MCCOY. The "Kid" Outpoints the Californian—Bout Called a Draw. (ASSOCIATED PRESS NIGHT REPORT.) CHICAGO, Oct. 6.—"Kid McCoy" and Joe Choynski fought six rounds in the Chicago Athletic Club tonight. Both men had agreed to a draw in case they were on their feet at the end of the sixth round, and that was the decision, as both were not only on their feet, but comparatively fresh. McCoy, however, clearly outpointed the Californian, and the referee, putting Joe to the boards with a left hook on the mouth in the third round.

"The "Kid" made a careful fight of it. He took no chances, but contented himself with a rule, with jabbing Choynski with his left. He used his right but seldom, but generally counted hard on the head and body. Choynski scored many times, bringing the blood from McCoy's nose in the first round, and then a jabbing McCoy considerably with his right. Many of his blows, however, fell short.

"The preliminary Billy Jaufron of St. Louis and Jack Robinson fought a six-round draw. Lew Mansfield of Chicago knocked out Jack Falvey of Chicago in the second round. Hudson put Jim Quinn away in four rounds.

"KID LAVIGNE WHIPPED. The Knock-out is Knocked Out Last. (ASSOCIATED PRESS NIGHT REPORT.) NEW YORK, Oct. 6.—George McFadden of this city knocked out George "Kid" Lavigne, ex-lightweight champion of the world, in the ninth round before the new Broadway Athletic Club tonight. They met at 133 pounds, and put up a fight which was as sensational as it was prolific of hard hitting and clever ring work. McFadden's blocking of the "Kid's" rushes and leads was phenomenal, and the knockout was a real one. Saginaw boxer very raw and sore. At the opening Lavigne was the favorite, but after the twelfth round odds of 10 to 1 were offered for McFadden. Lavigne was well battered, and several minutes elapsed after the knockout before he could get up. He happened to him. McFadden left the ring virtually without a mark.

"McFadden fought carefully at the start, stopping Lavigne's rushes. Toward the close of the fourth round, he staggered the "Kid" with a left and a right on the head, and in the fifth round he took the "Kid" getting him in on the "Kid's" wind and stopping the latter's rushes in a way that set the spectators observing the fight on edge. Lavigne, unable to reach his man, seemed to have lost his temper, and fought wildly. In the seventh, the "Kid" came out with a right and seemed tired. McFadden landed twice on the jaw and again on the face, and the "Kid" rushed him to the ropes.

"In the eighth round the "Kid" rushed again, but McFadden's guard was perfect, and the "Kid" landed hard on the face and jaw again and again. In the ninth round McFadden landed left and right on the body, and the "Kid" seemed very fresh and strong as he stopped the "Kid's" rushes. Lavigne kept on leading ineffectually and getting smashed in the face, but in the eleventh round, soon after a clinch, the men fell. Lavigne nearly put McFadden out with a left swing to the pit of the stomach.

"When Lavigne came up for the thirteenth, his left eye was almost closed. He still rushed, but McFadden got much the better of the exchanges. In the fifteenth McFadden sent the "Kid" down and staggered him again with a right and a left. Later, Lavigne took heavy punishment in the sixteenth, and was evidently going downhill. Both men were on their feet in the seventeenth, but McFadden forcing his man. Lavigne went down from a right on the jaw, but got up instantly, and got a left to the head. Toward the close of the eighteenth round, Lavigne fell from a left jab and a push with his head. He got up in two seconds, only to go to his knees in the next, and out as the bell rang, and he went to his corner groggy.

"In the final round, McFadden went right to his man and had him reeling with right and left swings on the head. A right swing on the jaw put Lavigne to the floor, where he lay for six seconds. He got up, and tried to clinch, but was sent down twice more with similar blows. Each time he took almost the limit to get up, but it was beyond doubt that he was unable to cope with McFadden, who stood waiting to give him a final blow. The "Kid" clinched as he got up, and McFadden separated them. Then McFadden nailed Lavigne with a left back to the ear, and the "Kid" went down for

nearly nine seconds. A left to the body floored Lavigne for the fifth time. He got up only to go down again, this time from a clinch, with McFadden on top.

"McFadden jumped up at once, but Lavigne was slowly getting staggered across the ring, with McFadden hot after him. McFadden rushed his right to the head and uppercut his left to the chin. Lavigne was down again, but got up within the limit. He stood in a dazed condition. McFadden missed a left carefully, and with a left-awing this time, he landed a right at the top of the round was 2m. 30s.

"Before the principal event, Jimmy Daly of Baltimore defeated Edddy Bout, in which the white man was pretty thoroughly used up, though wonderfully game.

"WHEN GLORY BROKE. The Facing Fatality at Lexington Became a Farce. (ASSOCIATED PRESS NIGHT REPORT.) LEXINGTON (Ky.), Oct. 6.—The crowd was smaller than yesterday, but it was still large. The track was in fine condition. The racing was fairly good, but the facing fatality, which should have been the feature of the day, was a farce. Glory broke repeatedly in both heats, and so badly in the last that Lucie May distanced her.

"The 2:17 pace was a big surprise. Tom Wilkes was a favorite and won first and second heats with ease. In the third Wilkes sold for 50 and the field for 10, but the favorite broke at the start, and the stretch and finished second. Carleton won in a fine fashion. Carleton was made favorite then, selling for 50 and the field for 25. She took the next two heats with but little trouble.

"It took seven heats to decide the 2:21 trot. A schedule of betting by the odds was made. The favorite, Marie C. was the original favorite, and after winning one heat she sold for 50 to the field's 25. She could not keep her feet and was thrown at the post, after the starter had warned her driver repeatedly. She was disqualified. Earlin S. won the second heat. When she took the last twelve-round to 50 and the field sold for 25. In the next heat the betting was the same. Earlin S. won the third heat, and the field sold for 25. Finally, for the last heat, Earlin S. was again the favorite, the field being 25. Malzoum won the fourth heat, and the field sold for 25. The free-for-all pace for tomorrow was declared off, only Searchlight remaining in. S. H. Bronson of the Kentucky Jockey Club is his horse Searchlight against any pacer on the track for \$2500 to \$5000. He also offered to race with any three pacers for \$2500 a side each, Searchlight with a single heat. Results:

"The 2:17 class, pacing, purse \$1000: Coney won first, second and third heats; time 2:14 1/2, 2:15, 2:15 1/2. Tom Wilkes won first and second heats, and was second; time 2:14 1/2, 2:15, 2:15 1/2. Billy George won third heat; time 2:14 1/2, 2:15, 2:15 1/2. The 2:11 class, trotting, purse \$1000: Marie C. won first, second and third heats; time 2:11 1/2, 2:12, 2:12 1/2. Earlin S. won second and sixth heats, and was second; time 2:11 1/2, 2:12, 2:12 1/2. Malzoum won the fifth heat in 2:20 1/2, and was third. Marie C. distanced in the second heat, won the first heat in 2:15 1/2, and was second in 2:15 1/2, 2:16, 2:16 1/2. Lexi May also started.

"Pacing, Futurity, for two-year-olds, purse \$1000: Lucie May won first and second heats; time 2:14 1/2, 2:15, 2:15 1/2. Marie C. also started.

"COLLIER'S ECONOMICS. Pacific Improvement Company Absorbed to Decrease Rentals. (BY DIRECT WIRE TO THE TIMES.) NEW YORK, Oct. 6.—[Exclusive Dispatch.] It was announced upon excellent authority in Wall Street today that the Huntington-Speyer interests in the remaining Pacific Railroad had practically concluded negotiations for absorption of the Pacific Improvement Company, which controls many of the bridge and other facilities for which the railroad company now pays a large amount of rental.

"It was stated that the Crocker and Stanford interests were large holders of stock in the improvement company, and that it was through the purchase of their holdings by Huntington and Speyer that control of the company was to be obtained. The primary aim of the plan was to decrease rentals. Commission houses active in the stock of the Southern Pacific were large buyers today, and stock was active.

"FIXED THE INSPECTORS. Devoy Parade Stands Erected Improperly Allowed to Stand. (ASSOCIATED PRESS NIGHT REPORT.) NEW YORK, Oct. 7.—The most interesting subject up for discussion at today's session of the Dewey parade committee was the Dewey parade stands. Dr. Charles W. Roberts, chief sanitary superintendent of the Board of Health, submitted certain documents showing that the Dewey stands were not constructed in a sanitary fashion. Stephen F. Berry, owner of one of the Dewey parade stands, testified that his partner settled matters by giving one inspector \$30 and another \$25.

"The day proceedings wound up with an attempt to examine Peter F. Meyer, a dock commissioner and partner in the real estate business with Richard Croker. Meyer broke out with a passionate objection to being examined by Moss. He even objected to having any other reputable man examined by him.

"FARMERS' CONGRESS. New Legislation Recommended and Papers Read at Boston. (ASSOCIATED PRESS NIGHT REPORT.) BOSTON, Oct. 6.—The delegates to the Farmers' National Congress were received by Gov. Roger Wolcott at the State House today. The congress is resuming its business session here, a report of the committee on Resolutions recommending new legislation on various subjects.

"Hon. H. C. Adams, food commissioner of Wisconsin, delivered an address on the Necessity of Pure Food Legislation. H. P. Board of Fort Atkinson, Wis., was elected president, and John M. Stahl of Chicago secretary.

"At the evening session a paper on 'The Western Tenant and His Eastern Landlord,' by H. S. Hilton of Topeka, Kan., was read by F. D. Coburn.

"PHILADELPHIA LIGHT. Heat and Power Company Files Incorporation Articles. (ASSOCIATED PRESS DAY REPORT.) PHILADELPHIA, Oct. 6.—Articles of incorporation of the Philadelphia Electric Company, with an authorized capital of \$25,000,000, were filed at Trenton today. The company, it is said, will absorb the Pennsylvania Heat, Light and Power Company and the recently-formed National Electric Light Company, both of this city, and will ultimately control the electric lighting of Philadelphia.

"The authorized capital of the Pennsylvania Heat, Light and Power Company is, respectively, \$15,000,000 and \$10,000,000.

"VENEZUELA'S PEACE. Proposals to Castro Said to Have Been Accepted. (ASSOCIATED PRESS NIGHT REPORT.) CARACAS (Venezuela), Oct. 6.—[By South American Cable.] Señor Matos, an envoy from President Andrade to the insurgent commander, Gen. Cipriano Castro to negotiate terms of peace, arrived this morning at Puerto Cabello, coming from Valencia, to confer with Gen. Castro. This evening he will reach La Guayana and will leave immediately for Caracas to report to the president of his mission to the president.

"It is reported here that the proposals submitted by the envoy were accepted by Gen. Castro.

"MEXICO'S POPULAR WILL. Committees Want the People's Preference for President. (A. P. EARLY MORNING REPORT.) CITY OF MEXICO, Oct. 6.—The National Liberal Party Committee announced that it has arranged to take a plebiscite of all citizens in order to obtain their preference for a candidate for Presidential nominations next year. The National Liberal Nominating Committee will ratify the popular choice thus ascertained. The committee is composed of non-office holders, entirely apart from the government. The plebiscite is a new idea, and is designed to secure the free and complete expression of the popular will.

John Morley Says Unhappy Diplo-
macy Has Caused Present
Situation and Condemns Great
Britain's Action.

[ASSOCIATED PRESS NIGHT REPORT.]
LONDON, Oct. 6.—[By Atlantic Ca-
ble.] The Cape Town correspondent
of the Daily Mail says:

"A sensation has been caused here
by the report that the Free State govern-
ment has commandeered 800 tons of
coal, belonging to the Cape govern-
ment, which was traversing the Free
State. Such a seizure would naturally
be regarded as an act of war. J. W.
Sauer, the minister of the Public
Works when questioned in the assem-
bly regarding the matter professed
ignorance, but I learn that the report
was telegraphed to the Cape ministry
early in the day.

"I learn that the Transvaal's threat
to put British troops over the border
would necessitate the withdrawal of
Corrynham Greene.

"Some surprise is manifested over the
report that a large number of British
troops are to be landed here instead
of at Durban. This is taken as a sign
that the Transvaal will be invaded
from the west and not from Natal."

TROOPS RESTRAINED.

Boers Waiting Until Fired Upon or
War is Declared.

[ASSOCIATED PRESS NIGHT REPORT.]
LONDON, Oct. 6.—[By Atlantic Ca-
ble.] There has been almost a com-
plete dearth of news from South
Africa today. The few dispatches re-
ceived recording military movements
at various points all tend to confirm
the belief that President Kruger will
restrain any forward movement by the
Boers unless they are fired upon or
war is actually declared.

It is now practically certain that
Parliament will meet on October 17.
Reserves will be summoned tomorrow
in sufficient number to bring up to a
war strength the regiments warned to
hold themselves in readiness for service
in South Africa, or about one-sixteenth
of the total reserve. The Daily News
asserts that an army corps will be
mobilized tomorrow.

A dispatch from Mafeking announces
that Commandant Cronje, of the Boer
forces, has been promoted to the rank
of general and is massing 6000 Boers
with artillery, near Ramatlabama, north
of Mafeking. The dispatch adds that
Gen. Cronje has sent a message to
the camp of the imperial troops that
he will cross the border at the first
shot fired in Natal.

It is stated that Right Hon. Harry
Escombe, formerly Premier of Natal,
is going to Pretoria in the interest of
peace. H. M. S. Philon suddenly left
Durban today for Delagoa Bay.

The Daily Chronicle's Rome corre-
spondent says that the British govern-
ment has applied to Sig. Marconi with
a view of employing his system of
wireless telegraphy in the Transvaal
campaign.

BOTH SIDES DIFFIDENT.

Existing Freedom from War May
Continue Some Time.

[ASSOCIATED PRESS DAY REPORT.]
LONDON, Oct. 6.—[By Atlantic Ca-
ble.] All reliable intelligence from
South Africa points to a continuance
of the existing situation for some time,
as both sides are apparently diffident
about commencing an attack, although
all the dispatches received here seem
to indicate that every movement of a
patrol and every cloud of dust main-
tained by a herd of cattle is turned into
a general advance by both armies.

The delay is all for the best, inas-
much as it gives time for further nego-
tiations, and today's indications
apparently show a willingness on the
part of the British government to con-
tinue to utilize diplomacy. A well-de-
fined conviction is rising that the For-
eign Office is trying to find a way out
of the "impasse" which has been cre-
ated by admitted mistakes and mis-
calculations, and it is evident that
peace advocates and peace counsels
are gaining ground. However, Cham-
berlain's refusal to sign the chan-
celor's petition of fifty-eight
members of the Cape House of As-
sembly, to point out in reply that the
Boers still have the opportunity of ac-
cepting Great Britain's previous offer
so long as her new proposals remain
unformulated, seems to show a per-
sonal determination on the part of the
Secretary of State for the Colonies not
to yield an iota in the interest of peace.

While the distaste for war evidently
increases in Great Britain, dispatches
from the scene of possible hostilities
grow more and more lurid. Advice
from Pretoria describes the Transvaal
organs as crying for impossible terms,
and President Kruger as referring to
the prospective struggle as a means
of setting the republic "totally free
of England." It is also said, according
to advices from the same point, that
the Boer forces at Volksrust will advance
today to the Natal border, and, accord-
ing to Gen. Symons, although Com-
mandant-General Joubert is personally
averse to hostilities, his patient
tactics will not last, as the Boers will
soon demand orders to be disbanded
or invade Natal.

The dispatches from Cape Town of
doubtful authenticity allege that the
Boer organization is already breaking
down, and that friction is developing
between the artillery, who are regu-
lars, and the lighter commandos. The
refugees in Cape Town are having a
bad time, the women and children be-
ing in a pitiable plight. The govern-
ment's offer to furnish its transport
for some of the distressed has been
accepted.

The announcement from Pretoria that
the British diplomatic agent, Conyngh-
am Greene, is ill, is taken in some
quarters to indicate the possibility of
his recall and of further steps in the
direction of a peaceful adjustment.

A host of officers, including Prince
Christian Victor of Schleswig-Holstein,
son of the late Lord Randolph Church-
ill, who will accompany Gen. Sir Red-
vers Buller, will not go on behalf of
the Times, but as the war correspond-
ent of the London Morning Post and
the New York World.

In connection with the rumors that
Queen Victoria is liable to intervene
to prevent war, a curious story is pub-
lished this morning by the Vienna Es-

trablatt, which alleges that Her
Majesty intends to abdicate in the
event of an outbreak of hostilities, de-
claring that it has this information
from "an excellent source." The
statement unfavorably affected the
Vienna Børs. The British Foreign
Office, when shown the Vienna story,
declared it "supremely ridiculous,"
and "utterly baseless."

Sir Henry Campbell-Bannerman,
speaking at Mafeking today at a
luncheon specially arranged to give the
leader of the opposition in the House
of Commons an opportunity of express-
ing the views of official Liberalism regard-
ing the Transvaal crisis, said that
neither side has shut the door on peace
negotiations.

"Great Britain," he continued, "has
not made her demands as a sovereign
power, but in virtue of international
law, and as the power responsible for
the well-being of South Africa. If the
Boer government has refused the reason-
able requests of the Secretary of
State for the Colonies, September 8,
through fear and suspicion regarding a
possible attack upon their independence,
the Duke of Devonshire (Lord President of
the Council of Ministers) and Sir Matthew
White Ridley (Secretary of State for
the Home Department), constitute ap-
pearances which ought to extinguish
suspicion and fear. These speeches are
quite as authoritative as any ap-
pearances, and bind the honor of the gov-
ernment and the country. They ought
to open the way to an agreement."

"Party interests must stand aside
at this juncture, as well as the reputa-
tion of ministers. I do not believe
that diplomacy has said its last word,
although the country is on the brink of
war. It is a remarkable thing that
when the question is asked what we
are going to war about no answer can
be given. This country has never yet
gone into a great war in such a state
of uncertainty.

"From patriotic motives, Liberals
cannot and must not embarrass the
government, but the time for free
speaking will come by and by. At the
present moment the interests of party,
the reputation of ministers and our es-
timable of ourselves are all sacrificed
to the claim of expediency. The gov-
ernment must stand aside, as the only
thing that matters is the question of
peace or war."

Pointing out the absurdity of going
to war for a difference of two years
in the proposals for the franchise, Sir
Campbell-Bannerman declared that the
claim of expediency had finally been ex-
ploded by Sir William Vernon Har-
court and Sir Edward Clarke.

"When this claim was dug from the
grave it was recently buried in 1894
by the wise and experienced men who
then conducted South African affairs,
but it became known that it was de-
void of efficacy and a fruitful source
of difficulty. I believe the country has
confounded the word 'expediency,'
which is valueless, with the great fact
which is essential and cardinal—the
predominance of the supremacy, par-
ticularly of whatever you may wish to
call it, of British power in South Africa,
which is indisputable, and founded
upon the necessary facts of the situa-
tion."

AN AMERICAN'S VIEW.

J. H. Hammond Looks for the Early
Defeat of the Boers.

[A. P. EARLY MORNING REPORT.]
NEW YORK, Oct. 6.—A dispatch to
the Tribune from Paris says that John
Hays Hammond, the American civil
engineer connected with leading South
African mining companies, who re-
turned from the Cape two months ago,
after a brief holiday in the Tyrol, is
now passing a few days in Paris. The
appreciation of the situation in the
Transvaal, expressed by Mr. Ham-
mond in conversation with the Tribune
correspondent, are of interest as
showing how a war between the Boers
is regarded by an observant repre-
sentative American, enjoying the advan-
tage of unsurpassed knowledge of the
facts, enabling him to grasp the situa-
tion.

As to the justice of the war, Mr.
Hammond did not wish to express an
opinion, but when asked whether the
war would be a short or a long one,
said:

"It will be a short war, ending with
the capture of Pretoria, after which
the Boers will recognize the futility
of further fighting. The Boers to-
night are as formidable fighters as
they were fifteen years ago; for ex-
ample their former enormous advan-
tage in marksmanship over the British
troops no longer exists, because game
having to some extent disappeared,
the Boers have no experience in shoot-
ing at moving objects. A few old Dap-
pers are still good shots, but they
are fast dying out. Moreover, the
British Lee-Metford rifle, with its re-
markable flat trajectory, puts Tommy
Atkins quite on an equality with the
Boers so far as marksmanship is con-
cerned.

"Quiet friends of the Boers," con-
tinued Mr. Hammond, "delude them-
selves into the belief that Great Britain
ought to be easy in negotiations, and
unfortunately, thereby provoking a
spirit of opposition to the British
demands resulting in the present
diplomatic impasse which makes a
war inevitable. Encouraged by the
present weakness of the British gar-
risons, the Boers evidently hope to oc-
cupy strategic positions, and by rapidly
assuming the offensive, deal telling
blows before the arrival of the bulk
of the British army."

Mr. Hammond thinks there is no
danger of the conflict developing into
a war of races, because the Boers, es-
pecially the younger generation, are
manhood, have commercial instincts
and are fond of making money. They
are altogether more enlightened than
the old Doppers, with their dog-in-the-
manger exclusiveness. Mr. Hammond
feels confident that both nations will
have reason to respect each other more
after the war.

Leading operators on the Bourse have
been waiting for a drop in mining se-
curities to buy in anticipation of an
eventual appreciation of values in the
better class of mines, though there
is a strong tendency in London to
discount a future rise.

VESSELS CHARTERED.

British Engaging Many Liners for
Short Periods.

[A. P. EARLY MORNING REPORT.]
NEW YORK, Oct. 6.—The Tribune
says that surprise and interest have
been excited in shipping circles by
the news that within the last three
days some thirty-five vessels engaged
in the trans-Atlantic trade have been
chartered by the British government
for periods of three months and up-
ward.

Among the ships chartered are a
number belonging to the big passenger
and freight lines, though the complete
list is not known at the offices of the
lines in this city, as the transactions
were conducted abroad.

Of the Cunard-line boats, the Au-
rora and the Servia are known to
have been chartered, and the Mongolian
and three other vessels have been en-
gaged from the Allen line. At the of-
fice of the Wilson line it was said that
several other ships had been spoken,
but their names were withheld.

The Mohawk and the America, be-
longing to the Atlantic Transport Com-
pany, have been chartered, but officials
of this company said they did not wish
to charter any more. The White Star
liner Nomadic has been chartered and
it is said that others of the line have
been engaged, but this was not posi-
tively confirmed at the office. The
opinion was expressed, however, that
none of the larger and faster vessels

would be taken by the British govern-
ment.

Besides the regular liners and the
cruiser steamships, the British govern-
ment has been chartered, a number
of vessels sailing from other
American ports have been engaged,
among them four Canadian boats in the
Boston and Liverpool service. These
are the Pavana, the Corinthia, the
Cephalonia and the Catalonia; also
steamers from the Leland line, between
Boston and Liverpool, and the Domi-
nion and Warren lines, operating be-
tween the same ports.

It is also reported that the Chicago
and Columbia of the Wilson and Fur-
ness-Leyland lines, Boston-London
service, have been contracted for, but
this could not be confirmed. Other
boats are the British steamer Elphra
and Montezuma, which, as far as
known, are not attached to any regu-
lar line. Prices that have been paid
for the various steamers, it is said,
range from 12 shillings 6 pence to 17
shillings 6 pence a month, accord-
ing to the character of the steamers,
the lower rate being for cargo
service, and the higher for passenger
and semi-passenger vessels.

PEACEFUL SENTIMENTS.

John Morley Condemns Britain's
Abandonment of Franchise.

[ASSOCIATED PRESS NIGHT REPORT.]
LONDON, Oct. 6.—[By Atlantic Ca-
ble.] Addressing a peace meeting at
Cambridge, England, today, Mr. Morley
asked the country to realize the pre-
judgment to which it had been brought
by unhappy diplomacy and the bed-
lamite councils of the war press and
the war party.

Mr. Morley, "President Kruger
had accepted a franchise
proposal of September 7, with re-
liance upon the convention of 1884,
he would have been planted behind
diplomatic entrenchments, which by
fair and reasonable means would have
been forced. Even after that
refusal, there was still room for a
friendly settlement, but just as the
Transvaal made a mistake, our gov-
ernment capped it by withdrawing the
franchise proposal.

Pointing out upon the modera-
tion and reasonableness of the recent
speech of the Duke of Devonshire,
which proved that Great Britain did
not desire the Transvaal, Mr. Morley
said he had always pressed the
urgency of the Transvaal meeting
of Great Britain and the Transvaal,
which had hitherto been the founda-
tion of the government policy.

He dilated upon the eventual danger
of the Transvaal, a disaffected popu-
lation held down by force of arms, and
said he failed to see why the Trans-
vaal and Great Britain should be un-
able to come to terms. Mr. Morley spoke
derisively of the talk of a Pan-Afri-
kaner conspiracy in South Africa.

ACUTE STAGE REACHED.

Private Cable to Dr. Bosman Takes
a Gloomy View.

[A. P. EARLY MORNING REPORT.]
NEW YORK, Oct. 6.—Gen. James R.
O'Brien has made public the follow-
ing extract from the cablegram advis-
ing Dr. Bosman of the general's ap-
pointment as commissioner extraor-
dinary in the United States.

"I may add that the dispute has now
reached the most acute stage. The
forces of this republic have mobilized
on the border, while those of the Or-
ange Free State are mobilizing, and all
aspects of peaceful settlement seem to
be vanishing. We are still willing to
arbitrate. If Gen. O'Brien accepts,
kindly request him to cable at once in
reply, which we will advise by
return cable.

(Signed) "RIETZ,"
State Secretary South African Repu-
blic."

Gen. O'Brien was provost marshal
under President Lincoln. He was once
commissioner of immigration, and was
der Mayor Strong was Commissioner
of Charities.

BOERS REPRESENTATIVE.
[ASSOCIATED PRESS NIGHT REPORT.]
WASHINGTON, Oct. 6.—The State
Department has received from the
Secretary of the Transvaal govern-
ment notice that the Transvaal has
appointed to be its diplomatic repre-
sentative in Washington, Gen. J. R.
O'Brien, a resident of the Orange Free
State, who would be recognized by our
government. Assistant Secretary Hill
in reply has cabled the State Secretary
that the rules of the United States
government forbid the reception of an
American citizen as the diplomatic rep-
resentative of a foreign government.

FREE STATE'S PRESIDENT.

Tells the Burghers That Fighting
Would Be of No Independence.

[ASSOCIATED PRESS DAY REPORT.]
BLOEMFONTEIN, Oct. 6.—[By
South African Cable.] President Steyn,
addressing a commando in Market
Square on Thursday, congratulated
the burghers on the rapidly with
which they had responded to the call
of the Orange Free State did not
intend to make an attack, but that it
would fiercely defend its cherished
rights. The enemy was strong, but it
that enemy crossed the border, it
would be met with a determined
resistance.

In concluding he exclaimed: "We
would be fighting for the independence
of our State."

AMERICA FAVORED.

British War Office to Disappoint
Brisbane Cannera.

[ASSOCIATED PRESS DAY REPORT.]
BRISBANE (Queensland), Oct. 6.—
[By Australian Cable.] Great disap-
satisfaction is expressed in commercial
and political circles here at the news
that the British War Office has placed
large orders for canned meats in the
United States. As a matter of fact,
the Queensland cannery anticipating a
large demand had prepared in-
creased stocks, which will now possi-
bly be a drug on their hands.

NO GUARANTEE WANTED.
[ASSOCIATED PRESS DAY REPORT.]
LONDON, Oct. 6.—A private message
from a high official in Pretoria, in re-
ply to a friend in London, says: "We
do not want any guarantee of inde-
pendence. We stick to the London
convention. We have lost all faith in
British statesmen, and have nothing
more to say."

Mining shares had quite a boom in
the Stock Exchange today, owing to
the report that Portugal had asked
Great Britain to protect her frontier.

EJECTING KAFFIRS.

[ASSOCIATED PRESS DAY REPORT.]
JOHANNESBURG, Oct. 6.—The gov-
ernment is ejecting thousands of Kaffir
miners from the Rand, and sending
them into the northern districts of the
Transvaal, in order to avoid the dan-
ger of a collision with the whites in
the event of war. The Irish corps
supporting the Boers, has started for
the frontier.

BIG DEAL IN MULES.

[ASSOCIATED PRESS NIGHT REPORT.]
KANSAS CITY, Oct. 6.—Agents of
the British government closed a big
deal on the local horse market today
when they contracted for 2000 head of
mules to be shipped Monday next to

New Orleans, presumably for trans-
portation to South Africa. The con-
tract calls for sound mules, 13½ to 14½
hands high. The price is not stated.

OUTRAGES COMMITTED.
[ASSOCIATED PRESS NIGHT REPORT.]
JOHANNESBURG, Oct. 6.—Thous-
ands of natives have invaded the
town, and today the authorities de-
cided to march them under escort out
of the country. Last night two natives
entered a clothing store kept by a Jew
and stabbed the man in the neck, ad-
versing his windpipe. Two Jewish store-
keepers in the East Rand have been
murdered by natives, and the Kaffirs
are raiding all the places where they
think liquor is stored.

The War Commission, acting under
the government's instructions, will to-
day issue notices to shopkeepers to
remove the barricades they have
erected, on the ground of the govern-
ment's guarantee of protection ought
to be sufficient.

SCHLEY IN COMMAND.
He Takes Admiral Howison's Quar-
ters on Cruiser Chicago.

[A. P. EARLY MORNING REPORT.]
NEW YORK, Oct. 6.—Rear-Admiral
Schley will raise his flag on the cruiser
Chicago today at the Brooklyn navy
yard, taking the quarters of Rear-
Admiral Howison.

The Chicago will remain at the navy
yard for some time. Her conning
tower is to be removed and a steel
place a charthouse is to be built on
the bridge. The walls of the conning
tower are so thin they would afford
no protection to men inside.

CONTEST TO BE DROPPED.
[A. P. EARLY MORNING REPORT.]
NEW YORK, Oct. 6.—A special to
the Herald from Washington says:
"President McKinley may not resubmit
to the Senate the nominations of
Rear-Admirals Sampson and Schley for
promotion to the rank of Admiral, as
they are disposed to avoid a renewal of the
bitter contest between friends of the two
matters drop."

When Admiral Sampson was here,
he talked with Secretary Long on the
subject of the grade of a star. He is
naturally gratified at the support
received from the administration,
but does not want to embarrass the
President. He is confident that Admiral
Schley has many friends who will sup-
port his claims for recognition, and
some of them may propose a bill creat-
ing the grade of vice-admiral, and
hope that the President will appoint
him to the position.

Because of the South African situa-
tion, it is planned to get a star ready
for sea as soon as possible and the
work of repairing that vessel will
be expedited. It is stated that the se-
lection of the cruiser Brooklyn as
flagship of the Atlantic station was
specially recommended by Admiral
Dewey. Admiral Schley wanted his old
flagship, the USS Oregon, but it had
been sent, but for Admiral Dewey's sug-
gestion. The grade of Captain P. H.
Cooper has been detached from the
command of the Brooklyn. His suc-
cessor will be announced in a few
days.

PAN-PRESBYTERIAN ALLIANCE.

New President Chosen—Closing Ad-
dress by Dr. Duffield.

[ASSOCIATED PRESS DAY REPORT.]
WASHINGTON, Oct. 6.—At today's
session of the Pan-Presbyterian Alliance,
held at the Hotel Hamilton, D. D. of
Toronto, Can., was chosen formally as
president, succeeding Rev. Dr. Lang
of Glasgow, Scotland. The recommenda-
tion of the Business Committee, con-
taining in office the other officers and
the Executive Committee was adopted.

Formal resolutions were adopted urg-
ing that the Bible be used in all
periods of instruction in schools of
learning, asserting that the marriage
relationship should not be dissolved ex-
cept on grounds laid down in the
Scriptures, and that the church array
its forces the more strongly in opposi-
tion to the liquor traffic.

Rev. Dr. W. H. Roberts of Rich-
mond, Va., presented a paper on "The
History of the Western Section of the
Alliance," and the Rev. Dr. Chambers,
Ireland, addressed the council on "The
Missionary Work in Brazil."

The closing address was delivered by
the Rev. Dr. Duffield of New York City,
on "Christian Progress During the Nine-
teenth Century."

STEAMER SUNK.

City of Memphis Goes Down at Gold
Dust, Tenn.

[ASSOCIATED PRESS DAY REPORT.]
MEMPHIS (Tenn.), Oct. 6.—The St.
Louis and Memphis Packet Company's
steamer City of Memphis sunk yester-
day at Gold Dust, Tenn. No lives
were lost and there will be little dif-
ficulty raising her. A valuable cargo
is damaged.

HOLE IN HER HULL.
[ASSOCIATED PRESS DAY REPORT.]
ST. LOUIS, Oct. 6.—The City of Mem-
phis left Memphis Wednesday night for
St. Louis. While making the crossing
between Ross Landing, Ark., and Gold
Dust, Tenn., she hit a hidden obstruction
and smashed a hole fifteen feet
long in her hull. The steamer is valued
at \$40,000.

COFFEE HEART.

Many People Think They Have Heart
Disease.

"My husband and I used to drink
Mocha and Java coffee at forty cents
a pound. We made it strong and always
for breakfast, sometimes cold and
weather for luncheon and dinner. A
form of heart disease came onto both of
us. Husband complained of his heart
missing a beat sometimes and that he
could not sleep after drinking coffee
for the 6 o'clock dinner. He had pains
at the heart, and very peculiar smother-
ing sensations, frequently accom-
panied with sick headache. My physi-
cian forbade the use of coffee, and we
were put on Postum Food Coffee, with
the result that both husband and my-
self have fully regained our health and
our hearts are all right and perfect now."

"I have reached such perfection in
making Postum that husband cannot
tell either by look or taste whether he
is drinking fine coffee or Postum, and
he is a connoisseur in coffee. We drink
Postum two or three times a day and it
never fails on our taste."

"A good many people make Postum
in a very slipshod manner; that is, they
dash a little into the coffee pot and let
it bubble up a little while and serve it,
but that makes the flattest kind of a
drink. On the contrary, when four
heaping teaspoons to the pint of water
are used and the Postum allowed to
boil for five minutes after the
boiling begins, (not counting after it is
put on the stove but after the real
boiling begins) then one obtains a be-
verage that is worth while."

"I have no objections to your using
my name." Mrs. J. A. Cooper, 800

CHICAGO RECEPTIONS.

Ambassador Aspirin Arrives—Com-
mittees to Meet Other Guests.
[ASSOCIATED PRESS DAY REPORT.]
CHICAGO, Oct. 6.—Don Emanuel
Aspirin, Mexican Ambassador to the
United States, and the first of the dis-
tinguished guests whom Chicago has
arranged to entertain during the fall
festival, arrived here today from
Washington. He was escorted to the
Auditorium annex by a troop of the
First Illinois Cavalry and the Mexican
National and Phenny's State bands.

This evening reception committees
have arranged to leave to meet the
guests now en route. President McKin-
ley will be greeted at Galesburg
by Premier Laurier and party this
side of the Canadian line, and Vice-
President Mariscal of Mexico at Mat-
toon, Ill.

HELD FOR MURDER.

Negro Coleman Taken to Covington,
Ky., for Safekeeping.

[ASSOCIATED PRESS DAY REPORT.]
MAYSVILLE (Ky.), Oct. 6.—Richard
Coleman, a negro, who confessed that
he killed Mrs. James Lashbrook here
yesterday, and who was threatened by
a mob last night, had a preliminary
examination today. He was held with-
out bail for murder, and as the grand
jury does not meet until the last week
in November, the Sheriff was ordered
to convey him to jail in Covington, Ky.,
for safekeeping. The Sheriff took the
prisoner in safety to the Covington
jail today.

Dewey has elected to accept a house in
Washington already constructed, in-
stead of having one built for his occu-
pation. In accordance with the invita-
tion of the committee which has had
charge of the Dewey home work, he

o'clock today to indicate his prefer-
ences in the matter of a residence.
There were present, besides Mr. Allen,
Assistant Secretary Vanderbilt, Mr.
Heath and Adj.-Gen. Corbin.
The committee informed him of the
intention to present him with a home
in Washington. He frankly expressed
his gratification at the tender, which
he immediately accepted. He said that
had the proposed home been the gift
of a few wealthy men he should feel
indisposed to accept it, but he noted
that the fund had over forty-three
thousand subscribers, indicating that
the home was to be really the gift of
the American people, and, as such, he
would accept it with as much pleasure
as he had the sword bestowed upon
him by Congress.

He then said he wished the house to
be located in the northwest section of
the city, somewhere west of Sixteenth
street, and not too far north, thus
indicating the neighborhood of his former
residence and the club where he
had spent a good deal of his leisure
time. First of all, he wanted the
house at the earliest possible moment,
so that he might "go in and hang up his
hat at once," as he put it. Of course
that precluded the erection of a house
to meet his special needs.
He expressed his ideas of the char-
acter of the home he desired, and
asked that the house be modest enough
for appointments and cost to admit of
the retention of a sufficient sum of
money from the purchase money to de-
fray the expense of furnishing it. The
committee listened attentively to these
suggestions, and saw no reason why
they should not be gratified.

The admiral will stop at New York
and see the yacht on his way to Shel-
burne Farms, Vt. He expects to re-
turn to Washington in a week or so.
Meanwhile the committee will go
through their list of properties and
hope to present to the admiral on his
return a list of half a dozen available
houses from which he may make a
selection. The fund now amounts to
about \$50,000, and it is earnestly desired
that this sum may be made fully in-
creased during the time remaining
before the purchase.

A SPANISH TRIBUTE.

Minister d'Arcos Says Everyone
Should Recognize Dewey's Valor.
[A. P. EARLY MORNING REPORT.]
BOSTON, Oct. 6.—The Spanish Min-
ister, Duke d'Arcos, who has just left
his house at Manchester, said with re-
ference to the reception being given Ad-
miral Dewey:

"It does not surprise me in the least,
Admiral Dewey is a brave and noble
man, and for the extraordinary service
he has rendered his country no honor
can be shown him in return is too
great. He has aroused the admiration
of the whole world by the gallantry of
his conduct, and he would be a small
man, indeed, who could not recognize
his merit and give free expression to
his admiration for Dewey's valor."
The Minister was emphatic in ex-
pressing the opinion that the very best
feeling existed between the United
States and Spain.

"There are absolutely no differences
between the two countries on any
subject," he said. "Certainly it is the
hope of all true Spaniards that this
condition should exist, and as for my-
self, as the Queen Regent, it is the ambition
of my life to bring about the very ut-
most of good feeling and good will."

SHIPS FOR MANILA.

Conditions at Santo Domingo De-
mand a Vessel There.
[A. P. EARLY MORNING REPORT.]

NEW YORK, Oct. 6.—A special to the
Herald from Washington says that
because of the disturbed conditions in
Santo Domingo, it will be necessary
for the Navy Department to send an-
other vessel there to take the place of
the gunboat Nashville, which has been
ordered to sail immediately for Ma-
nila. It is probable that the Marietta,
while on her way to the mouth of the
prince will be directed to stop and the
Detroit will relieve her as soon as the
evolution in Venezuela is at an end,
so that the gunboat can proceed to Ma-
nila.
Reports received here indicate that
Santo Domingo is not yet entirely at
peace. Unless Gen. Jimenez succeeds
in raising money to meet outstanding
debts and makes reforms in the cur-
rency, it is not certain that he will be
accepted, and should he not be fully
accepted, the fighting between the factions is prob-
able.

MRS. TODD'S DEPORTATION.

He May Go to Molokai on an Army
Transport.

[ASSOCIATED PRESS DAY REPORT.]
WASHINGTON, Oct. 6.—The Com-
missioner of Immigration is in com-
munication with Gen. Shafter, at San
Francisco, with a view to securing
passage on a transport for Mrs. L. M.
Todd, a leper, living in San Francisco,
whom it is intended to deport to the
land of Molokai.
The British Consul-General at San
Francisco, W. C. Pickersgill, became
interested in Mrs. Todd's case and pro-
posed against deporting her to Molokai.
He was asked to make provision for
her care and isolation in Canada or
elsewhere, but declined to do so, and
the Treasury Department today di-
rected Immigration Commissioner
Shaffer at San Francisco, to proceed un-
der his previous instructions to secure
passage for Mrs. Todd on some army
transport.

RAILWAY BUILDING.

October Will Surpass All Previous
Months of the Year.
[A. P. EARLY MORNING REPORT.]

CHICAGO, Oct. 6.—In the nine
months ended September 30 last, a
round-ninety-four miles of 2700 miles of
new railroad were laid in the United
States. Of this construction about
1400 miles were built in the months of
July, August and September, and there
are strong reasons to believe that the
building this month will surpass that
of any previous month of the year. In
an article dealing with the railroad
construction in the first nine months
of 1899, the Railway Age says:
"A survey of the field shows that
work has progressed steadily since July
1, but that not as much has been ac-
complished in the way of completed
road as had been anticipated. This
does not indicate that there has been
any perceptible abandonment of the
work undertaken during the first part
of the year, but it means that the
prosperity of the country is so general
and that the demand for labor and
material is so great that the railway
builders have found it impossible to
secure sufficient men and supplies to
carry on the work with the speed de-
sired."

From many sections of the country
comes the almost continual cry of
lack of workmen. Many hundreds of
miles of road are under construction
at the present time, which cannot be
completed this year, owing to the
scarcity of labor, and, second, to
the inability to secure rails and track
supplies. The demand for steel rails
is so great that mills are unable to fill
orders for early delivery, and it is like-
wise practically impossible to secure
relaying rails at any price. For these
reasons, much work which had been
planned for completion this year will
have to be postponed until 1900, so far
as putting down the rails is concerned,
although grading is being continued
with such force as can be obtained.
The 2700 miles of track laid thus far
during 1899, exceeds the total miles
laid for any year since 1892, with the
exception of 1898, when 3000 miles were
completed. As work is being rapidly
pushed in many sections of the coun-
try on both grading and track-laying,
scores of miles of track will undoubt-
edly be laid during the month of Oc-
tober, than in any previous month of
the year. Unless severe weather sets in
unusually early, there is every rea-
son to believe that enough mileage will
be added between now and January
1 to make the total for the year 4000
miles or over."

MARINE TRANSPORTATION.

Industrial Commission Takes Testi-
mony on Trans-oceanic Traffic.

[ASSOCIATED PRESS NIGHT REPORT.]
WASHINGTON, Oct. 6.—Frank L.
Neall of the firm of Peter Wright &
Sons of Philadelphia, and N. B. Kelly,
secretary of the Trades League of
Philadelphia, were the witnesses before
the industrial commission today.

Mr. Neall is a ship-broker and his
testimony dealt with the subject of
marine transportation almost exclu-
sively. He stated that since the Trans-
oceanic trade has become acute Great
Britain had taken at least seventy-five
vessels that were ordinarily engaged in
the foreign carrying trade of the United
States. The result naturally had been
a very marked advance in freight
rates, and Mr. Neall declared that the
tonnage of American vessels available
for ocean traffic did not exceed 300,000,
whereas the total tonnage of the ves-
sels of the world was 25,000,000.

He favored a revision of the maritime
laws of the country, so as to permit
the purchase of foreign-built freight
steamers for miscellaneous trans-
oceanic business, commonly known as
tramps. These vessels could be built
at a fourth cheaper abroad than in this
country, and wherever owned they had
proved very profitable. Within the
past two years the practice of leasing
such vessels by Americans, he said, had
increased fourfold, and after paying
a profit to the lessees, they were net-
ting their owners 20 and 25 per cent.
per annum.

Neall announced himself as opposed
to a discriminating duty for the benefit
of American-built ships, for the reason
that he believed that such a system
would precipitate retaliatory measures
on the part of the other nations. In
reply to a question, he said, there was
not a single line of steamers crossing
the Atlantic that is composed entirely
of American vessels.

Mr. Kelly explained the purpose of
the Philadelphia Trades League to be
to protect the shippers of that city
against railroad discrimination.

PHOENIX (Ariz.), Oct. 6.—Two
masked men held up the Palace saloon
at 2:30 o'clock this morning, and got
away with \$245. They left \$2000 more
in sight.It was just before the closing of the
games there for the night. There
were less than a dozen persons in the
house when two men, that inevitable ill-
assorted pair, the "long and the short
man," entered by a rear door with
dirty handkerchiefs over the lower part
of their faces. Nobody paid any atten-
tion to them until one stepped into the
middle of the room and drew two
guns. At the same instant, the other
put a revolver in the face of John
Collins, the faro dealer, and demanded
money. Collins told him to help him-
self, and he began gathering up the
bank roll.Proprietor Gus Hirschfeld got a gun,
came from behind the bar and took
a shot at the man standing in the
middle of the floor. The robber re-
plied with two shots. Both handker-
chiefs then made for the rear door and
escaped, just as the police came in the
front. They were pursued a couple of
blocks, and trace of them was lost.
Just before they entered the saloon
Collins had put \$1200 in the safe. None
of the other games were molested.
The robbers seemed nervous and in-
experienced. They allowed three men
to leave the room while the robbery
was going on.

COOKED AND EATEN.

Horrible Tale of Cannibalism
Brought by the Aorangi.
[A. P. EARLY MORNING REPORT.]VANCOUVER (B. C.), Oct. 6.—A re-
markable story of cannibalism has
been brought to Sydney, Australia, a few
days before the sailing of the steamer
Aorangi to this port, by the French
steamer Jeanette. The victim of the
display of savagery was a native of
Hawaii, named Amaru, who acted as
orderly to the immigration depart-
ment at Noumea, in the New Hebrides.
About six months ago Amaru married
a native woman of Aoba in the
New Hebrides group, and on passing
that island on the second day of the
voyage of the Jeanette to one of the
outlying islands, he decided to visit his
wife's tribe. Accordingly the couple
were put off in a small boat and it was
only a few weeks ago that the steamer
made a second call and learned their
fate.By mistake they had landed on an
unfriendly shore and were taken pris-
oners. The man was tied to a stake
and his torture began. This consisted
first in allowing vicious jungle snakes
from which the poison fangs had been
removed, to attack the man's legs.
Then a fire was made at his feet and
his legs were horribly burned, though
the injury was superficial so that the
victim would not die under the treat-
ment. Then he was made a target for
the spears of the tribesmen, who finally
killed him. He was torn to pieces and
placed over a fire with two sheep. In
fact, according to the story, he was
eaten with the sheep.In the mean time Amaru's wife had
been provided with a second husband.
The matter was reported to a British
man-of-war, but it is thought no action
has been taken.

RESCUED SAILORS.

Part of Steamer Tekoa's Crew Ar-
rive at San Francisco.SAN FRANCISCO, Oct. 6.—Five
sailors, who for weeks were thought
to have been lost at sea, and who were
given up by their friends as dead, have
arrived on the British ship Gifford,
which rescued them from death in the
cold and stormy seas off Cape Norton.
The rescued men were of the crew of
the British steamer Tekoa, which,
while bound from Wellington, New
Zealand, for London with a cargo of
frozen meat, ran on an uncharted rock
at the south entrance of the Straits of
Le Maire on the night of August 7
last. The five rescued men are Sec-
ond Officer Herbert Barnes and Sea-
men William Yeates, Harvey Marner,
John Finnely and Joshua Purkis.
After the vessel struck over 20,000
carcasses of sheep were thrown over-
board, and she was backed off the
rock. Thinking the ship was about to
sink the second mate, with four men,
got into one of the boats. They cut
loose and were soon out of sight of the
vessel, which was saved and taken to
Montevideo for repairs. All on the
boat were badly frost-bitten and
greatly exhausted when picked up by
the Gifford.

Engine at Placerville.[ASSOCIATED PRESS DAY REPORT.]
PLACERVILLE, Oct. 6.—Ernest Jordan,
the sixteen-year-old son of Charles
Jordan of this city, met a horrible
death at the railroad yards in this city
today. He, with several schoolmates,
went to the yards during the noon recess
of his school and climbed on
freight cars which were being moved
by a switch engine. He somehow fell
from the car on which he was riding,
the train passing over him, severing
his head and one arm from the body,
and cutting the body in two above the
hips.

Attorney Still Unsolved.[ASSOCIATED PRESS DAY REPORT.]
SAN FRANCISCO, Oct. 6.—Charles
G. Harker, a young attorney who dis-
appeared under mysterious circum-
stances several years ago, has been
declared legally dead by the Superior
Court. Harker was last seen on July
7, 1896, on board the Oakland ferry-
boat. His wife is of the belief that he
committed suicide, though she cannot
think of any reason for his taking his
life.

ROSLAND (B. C.), Oct. 6.—Charles
A. Hinkley, the bank cashier who was
accused of robbing the West Side
Bank of New York of \$97,000, is again
a free man. The offense was alleged
to have been committed in 1884, and
it is understood that others were im-
plicated in the affair.
County Judge Florin today heard the
case and promptly ordered the dis-
charge of the prisoner on the ground
that when the offense was committed
there was no treaty that covered it,
and that the charge was made under
the act of 1890, which was not retro-
active.

Thrilling Experience of American
Party on Musa River.[A. P. EARLY MORNING REPORT.]
VANCOUVER (B. C.), Oct. 6.—Dr.
Vaughan, an American who has worked
up a large trade among the people of
New Guinea, narrowly escaped being
caught by the natives a few weeks
ago. The news of his experience has
been brought here by the steamer
Aorangi.Early in September Vaughan, with
several men, went on a trading and
scientific trip up the Musa River, and
inadvertently came into an unfriendly
territory, a district very rich in pe-
culiar natural features, and were com-
pelled to retreat hastily to their
launch. In the middle of the river the
machinery broke down and the boat
drifted helplessly with the current.
The natives ran along the shore
hurling spears at those in the craft
while others followed in war canoes.
Several of the men were wounded, but

Every Thoughtful Woman will be Vitally Interested.'Tis not every woman who can buy without first considering the cost—and
woe be to the merchant whose goods cannot stand this crucial test.It's this mass of thinking, thrifty, prudent women that will be here today to look—to admire—to buy.
There'll be evidence so conclusive, so persuasive, as to surprise and capture the shrewdest shopper.

The New Wraps

A Demonstration That Carries Conviction With It.
We know we have the nobbiest and lowest priced garments
in Los Angeles—and we're going to prove it.

Today we'll present our evidences.

It'll not be a dress parade show that the in-the-rut
stores are so wont to make, but rather a sensible review of
testimony, like a courtroom scene, where there is no dis-
play of stiffness or formalities.Our prices are not so unimportant that we can utterly
ignore them—put on our Sunday finery and ceremoniously
show the styles.We ask you to come—and look—and marvel—and buy.
The Prices are as Striking as the Styles.

The New Millinery

An Unanswerable Demonstration of Leadership
You're looking for the becoming hat that's low priced.You've been all around the city in a fruitless
search for it. Come here today—it's waiting for you.To put good materials on a hat and chic styles
into it, requires art—and we have mastered it

Without Increasing the Expense.

You will like them. You can't help it even if
your taste is not cultivated.We are almost tempted to try our hand at de-
scribing the showing after the manner of some of our
esteemed contemporaries who liken their displays to
the splendor of the setting sun, the rising moon in
its majesty, a beautiful flower garden, etc. But we do
not like descriptive language of this sort. You'll find
it in the works of Ruskin, Guitard and De Maupassant.Our exhibit, with its beauty and intrinsic worth will appeal to
you as no language could. For there is no language so eloquent
or so persuasive as true art.

Dress Goods.

A Demonstration That Everyone Can Understand.

Here's a demonstration that'll open your eyes—Women of Los Angeles are used to
paying high prices for novelties—there's no need of it now—Tomorrow we initiate
the commonest kind of prices on the rarest of the season's favorites.The gamut qualities runs from the lesser priced cotton stuffs up and up at easy
stages past the plaids, the tailor suitings and rough goods, up to those charming silk
and wool crepons.

Black Crepons.

The newest bluster ideas in crepons, 40 inches wide, for demon-
stration, at 98c.

44 inch crepons in an ample variety of attractive patterns, yd. \$1.35.

Choice rough blistered patterns of crepons, sturdy, lusty
stuff, \$1.98.You ought to see this line of handsome silk and wool crepons
at \$2.55.

Then that latest idea of striped crepons marked at only \$2.50.

Rough Stuff.

Camel's hair plaids, in combinations of quiet soft shades of greens,
blues and blacks, 38c.Another line of stunning rough plaids, in effective shadings,
only 35c.Worsted plaids, yard wide and made for wear as well as looks;
the patterns are new, \$1.50.

Heavy reversible plaids, finest color effect conceivable, yard, \$1.35.

Reversible Oxford plaids that you can't find any place in the city
so low priced, \$1.50.

Tailor Suitings.

54-in. diagonal chevrons in grays, browns and
blacks, a favorite suiting and only 85c.A handsome quality of mixed suitings, greens,
blues and blacks, 54 in. wide, \$1.50.

54-in. Oxford suitings in all shades, but \$1.19.

54-in. top notch tailor suitings with invisible plaids
of browns, reds, blues, etc. \$1.19.Broadway Department Store
Broadway, corner Fourth, Los Angeles.a sail was rigged up and the launch
got out of reach of the savages.

COAST TRAFFIC ASSOCIATION.

Organized at San Francisco by Rep-
resentatives of the Jobbers.[ASSOCIATED PRESS NIGHT REPORT.]
SAN FRANCISCO, Oct. 6.—Fifty or
sixty representatives of leading job-
bing firms of San Francisco met today
to hear the report of a committee pre-
viously appointed in the matter of or-
ganizing opposition to the efforts of the
St. Louis Traffic Bureau to overturn the
transcontinental freight tariff. The
result of the meeting was the organiza-
tion of the Pacific Coast Traffic As-
sociation, and the appointment of com-
mittees to secure a fund of \$20,000 with
which to fight the case before the In-
terstate Commerce Commission at
Washington at the end of this month.
The St. Louis association has asked for
lower differentials to intermediate
coast points, and also for graded rates
from the Atlantic Coast to St. Louis,
Chicago, Los Angeles, Sacramento,
Portland, Tacoma and Seattle. Jobbers
will be asked to appoint members of
a committee of nine to manage the case.

STATE GRANGE OFFICIALS.

Election and Installation Followed
by the Closing Exercises.[ASSOCIATED PRESS NIGHT REPORT.]
NAPA, Oct. 6.—The State Grange
has elected the following officers to
serve the ensuing two years: Master,
G. W. Worthen, San José; overseer,
Charles W. Emery, Oakland; lecturer,
J. S. Taylor, Napa; steward, E. C.
Shoemaker, Visalia; assistant steward,
J. G. Steele, Jr., Pescadero; chaplain,Mrs. S. H. Dewey, Oakland; treasurer,
A. D. Logan, San Francisco.The election of officers was com-
pleted at Friday morning session, as
follows: Gate-keeper, M. D. Hopkins,
Petaluma; Pomona, Miss Belle John-
ston, Courtland; Flora, Miss Ella Cor-
nell, Rosters; Cores, Mrs. John Buck-
ner, Jr., Stockton; lady assistant stew-
ard, Miss Lena Lull, Sheldon.The evening session was devoted to
the installation of officers, after which
occurred the closing exercises and ad-
journment after a very successful
meeting.

PORTUGUESE COUNCIL.

Grand Officers Installed—Next Ses-
sion at San Jose.[ASSOCIATED PRESS DAY REPORT.]
SANTA CRUZ, Oct. 6.—The Portu-
guese Grand Council adjourned today,
after installing grand officers. It will
meet in San José next year. The only
important change made was regarding
the manner of transferring policies. The
rule was made more strict than heret-
ofore. Delegates were given a drive
around the city after adjournment.

MONTEREY'S REGULATIONS.

Abalone Cannot Be Fished for Out
of Certain Limits.[ASSOCIATED PRESS NIGHT REPORT.]
MONTEREY, Oct. 6.—The Board of
Supervisors of Monterey county has
passed an ordinance prohibiting any
company or corporation from catching
abalone, shell fish for the purpose of
curing or shipping out of the county,
except along the coast line between a
line drawn due west from the Carmel
River and the southern boundary lineof Monterey county, and making it un-
lawful to fish for abalone except in
deep water and by means of diving
apparatus or other deep-sea devices.
A license of \$50 is also to be charged
in the future for fishing for abalone.

ALVISO SLOUGH WORK.

Government Contract for Improve-
ments Let to Edward McCann.[ASSOCIATED PRESS DAY REPORT.]
SAN JOSE, Oct. 6.—The contract for
the improvement of Alviso Slough has
been let by the government to Ed-
ward V. McCann. This information
comes from W. H. Hunt, United States
engineer, No. 41 Flood building, San
Francisco. No other particulars are
known save that work is to commence
within sixty days from the time the
contract was let. This is supposed to
have been about the middle of Sep-
tember.

THE SUTRO ESTATE.

Cliff House and Baths Offered for
Sale by Executors.[ASSOCIATED PRESS NIGHT REPORT.]
SAN FRANCISCO, Oct. 6.—Judge
Coffey has made an order granting the
executors of the estate of the late
Adolph Sutro leave to sell real and per-
sonal property of the estate valued at
\$1,000,000. Included in the prop-
erty to be sold is the Sutro electric
Railroad. The expenses of administra-
tion thus far amount to \$15,000, and it
is estimated that they will aggregate
\$100,000.It is shown that the debts of the Sutro
estate exceed \$700,000, and it is thought
desirable to stop the interest as soonas possible. The plan of the executors
is to close out the interests of the
Sutro estate as soon as possible, and to
pay off the debts. The Cliff House
and Sutro baths have already been of-
fered for sale.

CHINESE "SCRAP."

San Jose's Chinatown the Scene of
Lively Shooting.[ASSOCIATED PRESS DAY REPORT.]
SAN JOSE, Oct. 6.—About 1:30 o'clock
this afternoon there was a lively shoot-
ing scrape in Chinatown. Fifteen or
twenty shots were exchanged, but so
far the officers have failed to discover
that any one suffered injury in the fu-
sillade. They say the shooting was
simply an ordinary "scrap" between
the tongs, and that all were so excited
that the shots went wild.

Dead in His Cabin.

REDDING, Oct. 6.—Word reached
here this evening that Michael Tuily,
a miner 77 years old, had been found
dead in his cabin in the gold-digging
district. His body was badly decom-
posed. Death is believed to have been
due to natural causes. He was a single
man, and had followed mining in the
county for many years.

Circus Off the Track.

SANTA CRUZ, Oct. 6.—The train
carrying Mah's circus ran off the track
near Watsonville this morning. No
one was injured, so far as known.

Another Life Saved.

My son had been complaining for some time, but we could not ascertain the cause, until we were suddenly surprised by the appearance of a dangerous looking lump on the abdomen. In our fear we called in the first physician we could reach in the neighborhood. He pronounced it "strangulated hernia" and said nothing could be done. The boy must be chloroformed and the rupture forced back, and if that failed he must submit to an operation. He also assured us that delay now of even a few hours meant death to our son. While deliberating over the matter I chanced to hear that Harry Angel's son had been cured of Rupture by Prof. Joseph Fandrey, No. 642 S. Main Street. I consulted him at once, put my son in his care and a happy father and mother can testify that his life is saved. One of the leading surgeons of the city as well as his parents witnessed the fact that without chloroform or the knife the rupture was returned through the small ring to its proper place and our son is saved from strangulated hernia and is today on the way to a permanent cure. Any-one wishing further information in regard to this case, please call on or address, Paul Jordan, 1024 East 36th Street.

YAQUIS GET ARMS.

Vice-President Mariscal Says They Have a San Francisco Agent.
[BY DIRECT WIRE TO THE TIMES.]

NEW ORLEANS, Oct. 6.—[Exclusive Dispatch.] Vice-President Mariscal of Mexico and his party reached here this morning, and after a drive left for Chicago.

In discussing Mexican affairs, Señor Mariscal said the government had recently ascertained that the Yaqui Indians had an agent in San Francisco, through whom they had received large supplies of American ammunition. As yet the matter had not been laid before the American authorities at Washington, he said, but official attention would be called to it at an early date.

The Yaquis, Señor Mariscal added, had been in rebellion for years, and had lately become more aggressive, and President Diaz had determined to finally crush them into submission. In the next campaign the government would use steel steamers and barges, the contract for which was placed in this city, and which had been partially filled.

The Mexican official party is composed of Vice-President Mariscal, Dr. Rafael Lavista, sub-director of the faculty of medicine of Mexico, and Señor Mariscal's private physician, Señor Balbina Davalos; Private Secretary Dr. Georgeza, Librarian of Foreign Affairs Señor Alonzo Varsical, nephew of the Vice-President; Congressman Benito Suarez, son of the former President of Mexico; Congressman Thomas Moran, son-in-law of Vice-President Mariscal, and Capt. Samuel Garcia Cuellar, adjutant to the Secretary of War.

NOTED HISTORIAN ILL.

Prof. Von Holst Resigns from the Chicago University Faculty.
[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, Oct. 6.—[Exclusive Dispatch.] Prof. Herman Eduard von Holst of the department of history in the University of Chicago, has resigned his position and retired to a sanitarium near Oconomowoc to recruit his failing health. He is a very sick man and may never be able to teach again. The noted historian has been ill for some time with stomach trouble, but only recently has his case become serious.

Two years ago he retired and spent a year abroad. Returning, he resumed his teaching, and has since lectured regularly at the university. This summer he spent with his family in a cottage at Lake Oconomowoc, and it was only when nearly time for him to return that he was seized with an attack of his former malady and forced to give up. He has been ordered by his physicians to take absolute rest.

Before giving up he sent his resignation to the university. What has been done with it could not be learned today. President Harper could not be found, and other officials disclaimed any authority to speak. President Harper announced at a recent convention that a leave of absence had been granted Prof. Von Holst until January 1, when it was hoped he would return to his work.

Mrs. Von Holst, who is in the city, refused to talk on the subject further than to say that the university had granted her husband a vacation of three months. She declared there was no reason existing that would cause the professor to quit the university.

More Trains for Portland.

PORTLAND (OR.), Oct. 6.—On October 15 the Southern Pacific will inaugurate a double train service daily between this city and San Francisco. For several months the traffic has been so heavy that it has been necessary to run the train in two sections south of Roseburg, where the local train services end. The second through train will leave this city at 8:30 o'clock a.m., arriving in San Francisco at 8 o'clock p.m., the same day.

For the addition of San Francisco to San Francisco at 7 o'clock in the morning and arrive in Portland at 7:15 o'clock p.m.

Stewart's Name Again Presented.

WASHINGTON, Oct. 6.—The name of J. H. Stewart of Illinois has been presented to President McKinley for appointment as Commissioner of the Interstate Commerce Commission. His name was suggested to President Harrison in 1889 for Interstate Commerce Commissioner by Senators Stanford and Stewart, and it was urged that he was familiar with Pacific Coast interests. He was interested in the building of the Pacific roads from 1867 to 1871.

Count Muraviev in Paris.

PARIS, Oct. 7.—Count Muraviev, Russian Minister of Foreign Affairs, who has been in conference in Spain with members of the Spanish government, with a view, it is said, of obtaining the admission of Spain to a continental alliance against England, arrived here today and will remain a week. A dinner will be given at the Elysée Palace in his honor.

Striking Ironworkers' Demands.

PARIS, Oct. 6.—Le Claire states that the delegates from the striking ironworkers at Le Claire, La Crosse, and other points, have been notified of the recognition of the union and employment of all the strikers. According to the Echo de Paris, the strikers refuse to accept arbitration, and insist on going to Paris. The authorities have taken severe measures to prevent trouble.

W.C.T.U. Convention Adjourned.

SACRAMENTO, Oct. 6.—The State convention of the W.C.T.U. concluded tonight, with special exercises at the Sixth Street Methodist Episcopal Church. There were presentations of banners, speeches, congratulations and farewell-takings, and altogether the women temperance workers had a joyous time.

Violated Prohibition Ordinance.

BERKELEY, Oct. 6.—George Federwitz D. Newell, James McNamara and Chris Schlenker were today arrested for violation of the local prohibition ordinance, which went into effect last Saturday.

DUNCAN APPARENTLY MURDERED IN COLD BLOOD.

Holding of Brown for Forgery Gives Rise to Suspicion of Foul Murder Having Been Committed.

Helvetia Mines, Which Were Officially Bought for Fifty Thousand Dollars, Sold for Five Millions.

Arrangements Being Made for a Great Educational Gathering at Tucson—Compulsory School Law.

TUCSON (Ariz.) Oct. 2.—[Regular Correspondence.] John L. Duncan, a well-known stockman, was shot and killed last Saturday at his ranch near Hooker's Hot Springs, north of Wilcox. Wiley Morgan, George Morgan and J. W. Mitchell, all cowboys, are under arrest charged with the murder. There had been a row over the ownership of a calf—a cause prolific of disturbance anywhere in the Southwest. Duncan appears to have been murdered in cold blood, however, for at the time he was shot he was sitting upon his horse with his hat in one hand and the reins in the other. The horse bolted at the first shot. Morgan pursued and fired altogether five shots from a pistol. Morgan also had a rifle in a scabbard beneath his leg. Duncan fell from the horse dead. Perhaps the best witness of the affair was James A. Finley, Duncan's stepson, only 9 years old. He told his story at the preliminary examination with childish directness, one feature of his testimony being that as his mother and grandmother ran toward the place where Duncan fell, Wiley Morgan coolly rode back and said to the two women: "Come and get your boy. He's dead."

J. C. Brown has been held to await the action of the grand jury, with bail fixed at \$1000, on a charge of forgery. Brown is the man who drew checks on the bank of California at San Francisco under the name of E. W. Derry. There was no doubt about Derry's deposit at the bank of California, and the signature on the check that Brown gave was similar to the ordinary signatures that have come in Derry's name to the bank of California. Brown claims that his name is also Derry, when he so chooses, and asserts his right to use many names as he desires to carry. The grand jury in the case is that while the local officials are sure that Brown is not Derry, the latter cannot be found. He is said to have been a salesman for the Standard Oil Company, and it is also stated that Derry and Brown traveled together for several weeks, Derry finally disappearing at Bisbee. Local deaths would have it appear that Brown murdered Derry and has taken upon himself Derry's identity and check books, but there is not an iota of evidence to that effect. Brown is what may be called a "high roller" and perceptibly raised the temperature of Tucson. His pleasure resorts for several weeks prior to his incarceration.

The young son of Ben Lofgren, who tried to kill himself at his father's ranch on the San Pedro River, six miles from Benson, is recovering, as the shot only penetrated the left shoulder. The lad had been punished by his father for some childish prank and for a time found few charms in life.

A few days ago a fire caught in a store room on West Congress street, temporarily occupied by S. M. Feldheim, a salesman for the Standard Oil & Co. of San Francisco. The building was damaged to the amount of only \$250, but the stock of Standard Oil destroyed. They were valued at \$2000. At Gleason Camp, Turquoise district, George Wilkerson was caught by sudden ground-slip, and he was quickly dug out by his comrades, but was found to have been severely bruised. One ankle was shattered. He was taken to Tombstone for medical treatment.

The Helvetia group of mines, comprising nearly eight thousand acres of land, has been transferred to the Helvetia Mining Company, by James H. Seager and wife. Seager is one of the principal owners in the company, and has been holding the property in trust. The mines were originally the property of George H. Hulse and others of Tucson, who sold them for \$50,000. The sale just recorded is for \$500,000, the deeds bearing revenue stamps to the amount of \$5000. A new smelter is being erected on the property, to be completed about November 1. At present, 25,000 tons of ore are upon the mines, fifty tons a day of good copper ore being produced in anticipation of a smelter drain of 150 tons a day. Five shafts and seven tunnels are being worked in the development of the property. Though the deepest shaft is only 300 feet, the one being pierced by a diamond drill in places to a depth of 1200 feet, and has been found continuous and rich throughout.

The wonder group of copper, gold and lead claims in Pinal county have been bonded by Henry & Helisch to an eastern company for \$280,000. In celebration of the return of the national naval hero, a strike of copper and silver ore has just been made in the Dewey mine, in the Cañada del Oro, seventeen miles from Oracle. The ore is an average value of about \$10 to the ton.

County School Superintendent John T. Hughes is arranging details, with the anticipation that the next session of the Territorial Teachers' Association, at Tucson, will be the most successful educational gathering ever known in Arizona. The meeting is to be held in the last week of December. Three days are to be occupied by a joint county institute, to which it is hoped will come teachers from Pima, Pinal, Cochise, Maricopa and Yuma counties. The last two days will be devoted to the work of the Territorial Association.

The initiative in the new Territorial compulsory school law is taken in the counties of Pima and Cochise. In Tucson the school board has furnished the Sheriff with the names of 471 children, between the ages of 8 and 14, who are not attending school, as by law directed, and pressure is to be brought upon their parents at once. The children are nearly all of the lower Mexican class. The same action is to be taken in Bisbee, where over 100 children eligible to school enrollment are being looked up. Every district in Pima county is to be canvassed and investigated, and the expectation is that the law's enforcement will result in an increase of fully 25 per cent. in the enrollment of Pima county schools.

The Territorial Board of School Examiners at its last session, passed a resolution advising against the reliance of temporary certificates. The advice has been considered good by County School Superintendent Hughes, who announces that hereafter no second-grade county certificates will be renewed.

The business men and farmers of the Gila Valley about Florence, are much exercised about the present condition of the Casa Grande Canal. This is a waterway that heads below The Buttes

on the Gila, twelve miles above Florence. It has a theoretical capacity of 22,000 miners' inches, but it was built on the corker plan. Silt has settled in every bend, and perhaps not a tenth of the original capacity is now delivered to water consumers. The canal has been continuously in litigation for about fifteen years. At one time the farmers deposed the receiver and ran the canal to suit themselves, and, consequently, were haled into court on numerous charges of contempt. The Gila River is at present furnishing a supply, yet the farmers are suffering for water. It is probable that some arrangements will be made with the company for the assumption of the property by the farmers, for the enterprise has been a losing one for the stockholders, as well. The canal has a capacity that would serve the irrigation of at least 60,000 acres of land, all of the finest quality, much of it lying in the vicinity of Casa Grande station, on the Southern Pacific Railroad. The whole plain in that vicinity, comprising several hundred thousand acres, could be irrigated were water storage established upon the Gila.

A curious feature of local commerce is that many hundred tons of freight are hauled to and from Nogales by freight teams, though a railroad connects the two towns by way of Benson. The wagon road is a good one, and freight rates are even less than by rail. It is locally believed that a railroad up the valley of the Santa Cruz to the Mexican border is really a necessity, and that its construction cannot be long delayed.

A number of Southern Arizona cowboys anticipate attendance on the cowboy carnival to be held in St. Louis next month, and believe the thousand-dollar prize for the best roping can easily be secured by our local champions. Dr. Goodin, undoubtedly the champion of the Southwest, will probably lead the Arizona delegation.

Students at the university have organized a football team, and will play at match game with the crack eleven of the Arizona Normal School of Tempe.

The new dormitory of the Territorial University will be ready for occupancy November 15. United States and District courts will convene at Florence on the first Monday in November. United States cases will be tried in the counties of Graham, Gila and Pinal.

Six non-commissioned officers of the Ninth Cavalry have gone from Fort Grant to take commissions in the new regiment of colored infantry now being formed in the East.

The chase after the Cochise Station train-robbers appears to be a very close one. Detective J. L. Thacker of Wells-Fargo's service, has been down in Bisbee scenting for a clew or two, while Sheriff White of Cochise county is ransacking the wooded ravines 150 miles to the northward, near Globe. There seems little prospect for the capture of either men or money.

A. C. Dickey, who has been manager for the Sunset Telephone Company at Tucson, has been transferred to Los Angeles. He is succeeded by George Norton from the Los Angeles office.

Rev. I. T. Whittemore, who has for several years been pastor of one of the churches of Florence and, as well, custodian of the Casa Grande ruins, seven miles from that town, has moved to Pasadena, Cal., where he will make his home.

A. Baker of Los Angeles has taken a position in the Tucson Planning Mills and has moved hither with his family. Edward Steele of Wilcox has gone to Stanford University to take a course in civil engineering.

FLAGSTAFF.

Grand Jury Recommends a Poor Farm—Secretary Gage's Outing. FLAGSTAFF (Ariz.) Oct. 2.—[Regular Correspondence.] Court has been in session in Flagstaff during the past week, Judge R. E. Sloan presiding. The grand jury found three true bills in felony cases. Its main recommendation was that the Board of Supervisors establish a county poor farm. Thirty-seven cases were on the civil docket, eight of them divorce cases. Judge Sloan will hold court during the next week at St. Johns Apache county. October 9, at Holbrook, he will commence the fall term for Navajo county. Court will begin in Yavapai county the following Monday.

One of the most material features of the court session at St. Johns was the contest over the office of Treasurer. R. E. Sloan, Republican, has been holding the office, not only for the past two years, but, as well, ever since January 1. He was a candidate at the last election, but Apache county, since the segregation of Navajo, is undoubtedly in the Democratic column. It is possible that he was not beaten, however. He claims there was a tie vote, but that the Democratic Board of Supervisors arbitrarily counted his opponent into office. He has therefore refused to deliver up the funds and the contest is to be determined in court.

The forest reserves of Northern Arizona comprise the following tracts: Grand Cañon reserve, 1,851,520 acres; San Francisco Mountain reserve, 975,360 acres; Black Mesa, 658,580 acres; Prescott reserve, 10,240 acres. The superintendents of the Arizona reserves are: Black Mesa, M. H. Rowe; Prescott reserve, W. H. Thayer; San Francisco reserve and Grand Cañon reserve, Fred S. Breen.

The Sisters of Loretto are soon to have a new school building, a two-story brick 34x52 feet in size. It is to be completed by the first of the year. The school, now only a month old, has forty pupils enrolled.

Orestes J. Gage, Secretary of the Treasury, and Ed E. Ayer of Chicago, the latter the founder of the great lumbering business of the Arizona Timber Company of Flagstaff, have gone to the Grand Cañon, accompanied by their families. On his return, Mr. Gage will leave for Denver, Colo., where he will address the Denver Board of Trade.

Dr. Mitchell says in difficult cases of Anemia, he adds cod-liver oil half an hour after each meal and he likes to use it in an emulsion; that he has watched with growing surprise some listless, feeble, creature gathering flesh, color and wholesomeness of mind and body from this treatment.

"Scott's Emulsion" is cod-liver oil combined with hypophosphites. It regenerates tissue, invigorates the nerves and brain, enriches the blood and adds fat and strength.

FREE LECTURES...

The Associated Physicians will give a series of Lectures that will be exceedingly interesting and highly instructive. Valuable hints as to how to gain and maintain perfect health. Causes of sickness and how to avoid it. Preservation of health one of the duties we owe to our fellow-men. Danger of delays. Valuable suggestions to ladies. Aids to beauty. The development of perfect womanhood. How health and physical charms are essential to their happiness as sisters, wives and mothers. First of this series of Lectures will be given in the large hall on second floor of the Institute, SATURDAY EVENING, Oct. 7. The public is cordially invited to attend. Admission free. Lecture begins at 8 o'clock.

Thousands of physicians and surgeons all over the world are giving their time to clinics and hospitals. Expert opinions are given at such places free that would cost the patient many dollars were these same professional gentlemen seen in their private office. So it is with the Homo-Alo Associated Physicians. Their services are gratuitously given to the sick, so to speak, when one finds the cost but fifty cents. There are no false claims made, no free treatment schemes, but you know when coming to them what it will cost to get the best medical expert advice as well. Those consulting with them will find each one a skilled prescriber. They treat all Chronic Nervous and deep-seated diseases. FIFTY CENTS, AND POSITIVELY NO HIGHER TO RICH AND POOR ALIKE, for advice, consultation and examination by physicians whose lowest fee when consulted outside of this institution would be (\$2) two dollars. Those unable to call, write for special home treatment; give history of disease, symptoms, etc. Hours—9 to 2 a.m. to 5 p.m.; evenings, 7 to 8; Sundays, 10 to 12. FRUIT-TARIFF REDUCTION.

Next Monday's Meeting of Importance to Growers.

The meeting of the Executive Committee of the California Citrus Growers' Tariff Commission at 3 p.m. Monday, at the Chamber of Commerce, will map out a policy for the defeat of the ratification of the proposed Jamaica treaty, which provides for a 20-per-cent reduction in the tariff on citrus fruits. Ways and means for carrying on the work will be discussed, and consideration will be given to the matter of sending a committee to Washington this winter to lobby with Congress in the interest of the citrus growers of the Pacific Coast.

The Citrus Growers' Tariff Commission, which was organized in 1897, is still intact, and it still has a small balance in the treasury with which to begin operations. The members of the Executive Committee are George Frost, E. P. C. Klokke and T. H. B. Chamblin.

Secretary Wiggins of the Chamber of Commerce said yesterday: "While the citrus growers are active in this matter, it behooves the growers of deciduous fruits to get a move on themselves, as their interests are concerned equally with those of the citrus people. The French treaty which is to be signed simultaneously with that of Jamaica, favors a reduction of 10 per cent in the duty on fruits in sugar or in spirits, and a like reduction on prunes. A 20-per-cent reduction on nuts is also provided for."

"The reports made by some of the officials interested in the treaty convention to the effect that California interests are not affected, are incorrect. California must take up the fight, as it did during the tariff controversy of 1897, and as these treaties must be ratified before March 24, 1900, immediate action should be taken."

The exact contents of the French treaty are not known, but the information divulged has been supplied by the American Chamber of Commerce in Paris.

The citrus growers will ask the co-operation of other interests, and failing in securing it, will take up the matter independently.

AGED PIONEER GONE.

Death Claims Jose Mascarel, Once Mayor of the City.

Jose Mascarel, once Mayor of Los Angeles, and one of the wealthy pioneers of Southern California, died yesterday morning of heart failure. He was 83 years of age, and leaves a widow and several children. Jose Mascarel was born in Marseilles, France, and followed the sea for several years previous to landing at San Pedro, in 1844. He was part owner in the first bakery in Los Angeles, and subsequently went into the wine-making industry. By careful investments he accumulated a fortune conservatively estimated at half a million dollars.

The funeral announcement will be made later.

Soldiers Want Work.

The War Board urges upon the people of Los Angeles the necessity of supplying employment immediately for those members of the late Battery D who have been unable to secure places. The men are very anxious to go to work, and are applying in great numbers to the secretary for employment that will enable them to make an honest living. They ask for no charity, but simply an opportunity to earn their living. Many have sacrificed lucrative position when responding to the call to arms. Not more than six of the men have been provided with positions since they were mustered out, and the secretary is called upon each day by men who desire employment. While many have had clerical positions, they are willing to accept almost any job that will provide them with the necessities of life. The men are all strong, faithful and honest, and those who require either skilled or unskilled labor are requested to inform the secretary of the Merchants' and Manufacturers' Association at the office, No. 228 Wilcox building.

Petty Offenders Sentenced.

George Economakis, an expressman, and John Vergos, a peanut vendor, both Greeks, were fined \$5 each by Justice Morgan yesterday for fighting at the corner of Requena and North Main street, because they claimed the right to stand at the curb.

Leo Miller and H. S. Sprinkle, who were arrested September 17 for bathing in the river above the city, and where the city obtains its water supply, were fined \$10 each by Justice Morgan.

Justice Austin yesterday sentenced A. J. Matuszewski to six months' imprisonment on a charge of petty larceny. The defendant was charged with stealing a single harness from C. A. Bright, who lives on Temple street.

Army Nurses' Reception.

The annual reception given by Stanton Relief Corps to the army nurses of the civil war residing in Los Angeles was held yesterday, and was attended by Miss Adeline Miller, Mrs. E. Threlkeld, Mrs. Elizabeth Rice, Mrs. Susan C. Barry, Mrs. Grace C. Lawrence, Mrs. Margaret Hughes, Mrs. Elizabeth Doolittle, Dr. Rachel P. Reid of Pasadena. The W.R.C. Hall was profusely decorated with foliage, flowers, and flags, and the guests were received by Mrs. Helen Fitch Cheney, Mrs. Francis Austin, Bird Thomas, Malvina McKinzie, Lizzie Bell Cross and Cynthia Clapp.

State Board of Pharmacy.

The State Board of Pharmacy concluded its semi-annual examination of candidates yesterday afternoon, and the results will be announced from San Francisco during the second week of October. There were thirteen applicants for licenses in pharmacy, and three for assistant pharmacists. The members of the board present were H. M. Sale of Los Angeles, A. G. Omond of Santa Barbara, E. A. Baer of Bakersfield, S. Oberdeener of Santa Clara, and S. L. Waller, secretary, of San Francisco.

Election at the University.

At the annual meeting of the board of trustees of the University of Southern California Thursday night the following officers were elected: President, G. F. Bovard; vice-president, A. J. Wallace; secretary, B. Johnson; treasurer, I. Cochran. Dr. Cochran will be acting dean, and the appointment of Rev. E. S. Chase as field secretary was indicated.

Thompson Found Guilty.

Joseph Thompson, charged with assault and battery by Justice Morgan, and sentenced yesterday, will be pronounced today. The charge is the outcome of a row at the Manhattan Club last Monday night, in which Thompson did the cutting. Both parties are colored.

When Doctors Disagree, Who Shall Decide?

Herbert M. Fish, a progressive and respected resident of Cape Vincent, N. Y., said: "The doctors disagreed in my case, one said I had the grip, another that it was jaundice, and so on. I tried many remedies but did not receive the slightest benefit. I was low spirited and nervous and had become reduced in weight from 155 pounds to less than 123. One day a friend recommended Dr. Williams' Pink Pills for Pale People. I tried them and the result was indeed marvelous. My appetite returned and I began to feel rested and restored. At the end of the tenth box my physical condition was better than it had been for years and I was a well man."

Flexible Rubber Dental Plates

Have many advantages over the old thick, cumbersome, ordinary rubber plates, and even over gold plates, being much lighter and thinner.

These plates are flexible, only a trifle thicker than heavy writing paper. Fit closer and adhere better to the roof of the mouth. Particles of food and small seeds cannot get under them.

They will last longer, are stronger than any others, and will not break, as they will give first, being flexible. Once tried none other will be desirable. Dr. Schiffman's own process, brought to the notice of the public by him only, and made ONLY by us. A perfect fit guaranteed in every case of plate work.

Persons having trouble with their plates or in having plates fitted, are invited to call and consult us.

How Are Your Teeth? Are they in healthy condition—not menaced by a sign of decay?

Chances are that you don't know—yet it is vital importance to your good health and good looks to be able to answer this question and be ready to check decay with a good tooth filling as soon as needed.

I will examine your teeth free of charge—advise you as to what care, if any, they require—and tell you gladly what my charges will be for the work.

BUSINESS.

FINANCIAL AND COMMERCIAL.

OFFICE OF THE TIMES.

ALL WANT GOLD.

The London Statist says that the competition for gold during the next few weeks promises to be great. No gold is available in Australia for export, and we may have to send gold to the Cape instead of receiving it, and also meet the demand for Egypt to pay for the cotton, as well as South America. Beyond these considerations we have the probability that America and Germany will endeavor to obtain gold at home. The unusual autumnal drain, consequently, will further advance the official mint. It appears nearly probable that our own government will require to raise a considerable loan, probably by the issue of treasury bills. Such a loan would, of course, give the Bank of England control of the market, enabling it to keep its rate effective, whatever it might be.

COMMERCIAL.

FALLOW IRON.

The Southern Stove Manufacturing Association, composed of leading stove manufacturers of the South, met in Chattanooga recently and advanced prices of stoves 5 per cent. in southern territory, to be effective at once. This advance, however, was 2 per cent. higher than last year, when iron began advancing. A special meeting of the Northwestern Plov and Implement Association, which was held in Chicago a few days ago, it was decided to make another advance of about 25 per cent. above the schedule made at the meeting held last July.

DEMAND FOR RAISINS.

Although a high price has been fixed on raisins, the orders from the East for new crop are liberal. Seeded raisins are particularly in demand. Eastern importers who sent orders abroad for raisins, excited the foreign market in themselves, with the result that prices in Spain were advanced 1/2 cent, thus shutting out the foreign fruit.

GENERAL BUSINESS TOPICS.

IRON AND PANICS.

There is a curious concurrence between the periodical advances in the price of pig iron and periodical panics, says the Philadelphia Record. The commercial revolutions in 1857, 1858, 1873, 1882 and 1894 were all preceded by extraordinary speculative activity in the iron trade, with extreme increase of prices as follows: In 1857, from \$10 to \$15; in 1858, from \$15 to \$25; in 1873, from \$15 to \$25; in 1882, from \$15 to \$25; in 1894, from \$15 to \$25. There may be no coincidence in this showing. It does not seem reasonable that prosperity should beget calamity, but there is a coincidence in this showing. Iron may put such a check upon industrial enterprise as to bring on stagnation and a possible crisis. At any rate, says the Record, the commercial revolution of 1894, if it is to be somewhat guided by past experience, even if we are unable to reach a bridge across the effect of the panic, will be a bridge across the effect of the panic.

BY-PRODUCTS OF CORN.

It is doubtful, says the Chicago Tribune, if the happy farmer, as he looks out over his acres of "splendid corn, realizes how many new uses science has found for the product of his fertile fields. Corn, so long neglected, has within the last few years advanced rapidly in importance, not only as an article of food, but as a raw material for many of the most important manufactured compounds are produced. If the corn crop promises to be the greatest on record, it is also true that the demand for corn will be equally as great. The fluttering green pennons on a thousand western prairies are the signal to all the world that the Kingdom of Corn has again won its own.

One of the most important recent developments in the use of corn in the manufacture of smokeless powder.

Hundreds of thousands of gallons of distilled spirits, made from corn, have already been used in the great government in making the new explosive, and until universal disarmament becomes more than a dream the demand for corn for this purpose must constantly increase. In this view of the case an increase in standing armies will be of value to the farmer, who may also look to the increased industry activity in the far East and in Europe without regret.

More important still to the farmer is the fact that the products of commerce are produced from corn.

These corn products promise to attain wide use, and their manufacture may develop into important industries. Here is the list of manufactured products for which corn furnishes the raw material:

- Mixing glucose. British gum.
- Crystalline glucose. Gum paste.
- Anhydrous grape. Corn oil.
- Sugar. Rubber substitute.
- Pearl starch. Gluten feed.
- Powdered starch. Chop feed.
- Flourine. Gluten meal.
- Dextrine. Corn cream.

Every article of the grain, including the cob, is manufactured into some useful product.

Among the products of the corn are: leather manufacturers, fruit preserves, confectioners, druggists, and paper makers. The corn is also used in the manufacture of mud and lubricating oil mixers, shade-colored manufacturers, paint grinders and manufacturers of various kinds of goods. This long list gives an idea of the large number of important industries which are now dependent on an extent on the product of western corn fields.

Greatest in the promise of future developments is the use of a corn product as a substitute for rubber.

This new rubber, which is made from the waste of ordinary corn, will, it is predicted, soon be used in the manufacture of all rubber goods, and it is expected will cheapen the price of these goods 25 per cent. It can be produced so its inventors claim, for 6 cents a pound, and in connection with an equal quantity of Para rubber can be used in the production of all classes of rubber articles.

In addition to the above comparatively new uses for corn, it should not be forgotten that the Indian corn propaganda is doing good work, both in this country and abroad, in demonstrating the great value of corn as a food. It is expected that the exhibit will be made at the Paris Exposition in Europe.

STEAMSHIP RATES.

A. H. Butler, president of the California and Oriental Steamship Company, declares that his company has been placed in a "light" through the trans-Pacific freight rates. The steamship official says that the rates to San Diego as to San Francisco, and figures are shown to bear out his statements. The rates from the Orient to San Diego, because of increased competition, are now stand at about \$2 per ton on rice, though this rate is subject to slight fluctuation due to various conditions at the port of shipping.

LOCAL PRODUCE MARKETS.

LOS ANGELES MARKETS.

LOS ANGELES, Oct. 6, 1899.

Chickens are coming in pretty freely, and the same at the market. Geese and turkeys come in slowly. The demand is pretty fair for chickens, and moderate for the rest of the list. Large fat hens are wanted most.

Eggs are very steady for eastern, but have the call over local ranch, as they all retail at 30 cents, and the profit is good on eastern, but very small on local.

Butter is firm for gilt-edge, or even strictly good.

Cheese is firm for all kinds.

The new bean season is open, and prices are 10 to 15 cents per cental easier, but small whites are 5 to 10 cents dearer. Lady Washington, which have been relatively very cheap, are unchanged, firm.

There is a little better feeling in the market for choice potatoes. The lay-down cost of Salinas is 2 1/2 cents more than heretofore, and prices can not be so many more at the cut-throat prices prevailing for some days past in some quarters.

Other markets are all steady to firm, the demand for fresh fruits being very good, and supplies light.

Southern California by Towns and Counties.

PASADENA.

WHAT CONGRESSIONALIST ASSOCIATION WILL DO.

Programme for the Meeting in Pasadena Next Week—Rally at North Pasadena and Free Lemonade. Quarter of an Inch of Rain at Mount Wilson—Brevities.

PASADENA, Oct. 6.—[Regular Correspondence.] The Congressionalists of Southern California will rally under the flag here next week, and a large attendance of delegates from the various towns will be entertained. The convention of the General Congressional Association of the southern counties will be held in the Congregational Church on California street, October 9, 10 and 11. The exercises will open Monday afternoon at 2 o'clock with a prayer by Rev. N. L. Powell. The day will be devoted to organization, appointment of committees, reports and similar business. Rev. Herbert W. Lathrop, pastor of the Congregational Church, will deliver the introductory address, his subject being "He that witheth souls to Christ." Rev. S. D. Bell will speak on "Soul Winning—What Hinders?" Devotional exercises will be held in the evening, with a sermon by Rev. S. D. Bell, followed by a celebration of the Lord's supper. A collection will be taken for the Ministers' Relief Association. Other delegates will take part on the following days are Revs. A. B. Case, C. P. Dorland, D. W. Bartlett, C. H. Frary, E. F. Goff, James T. Ford, J. H. Malt, S. Heston, J. H. Cooper, C. Y. Snell, M. F. Edwards, S. G. Emerson, President Ferguson of Claremont, Mrs. J. H. Williams, H. Barnett. Divorce reform will be one of the conspicuous topics discussed. Members of the local church will meet the delegates at the cars and drive them about the city, and show them many attractions.

THE STORM. There was a thundershower in the mountains shortly after 3 o'clock this afternoon. About a quarter of an inch of rain fell on Wilson's Peak, clearing off the foliage, wetting things down in a refreshing way, and causing joy among the people in camp. The rain was accompanied with little wind. The storm had been in the air for some time, and the sky was yellow. A baby north wind about twenty minutes. A small amount of damage was done to fruit drying in the open, but some of the driers took care of their trays in season to escape harm.

ELECTION DAY. Next Tuesday will be election day in North Pasadena and Lamanda Park, where citizens will vote on the question of organizing sanitary districts in those communities. This evening a well-attended rally was held in North Pasadena in the interest of the sanitary district movement. The ladies turned out as well as the men. On election day the W. C. T. U. of North Pasadena will open headquarters in a dust blow company's office and distribute free lemonade to voters. This is a bit of strategy intended to counteract the opposing influence of the saloon. Sunday afternoon the last rally for the district will be held at Lamanda.

PASADENA BREVITIES. Four traps were taken from a Santa Fe freight car this morning and arranged before the City Recorder. They gave the names of William Burns, John Brown, Robert Carroll and Joseph McCarthy. Three of them were boys under age. Each was sentenced to ten days in jail. They had aroused the ire of the railroad people by bunking in a car which had just been cleaned for the shipping of prunes, and leaving it in a filthy condition.

The name for the new parlor car now being built for the Los Angeles and Pasadena Electric Railway, will be selected from the competitive list on Saturday. The management will give a sixty-cent ticket to the person suggesting the name accepted by the committee as the best.

The police have been having trouble with bicyclists who persist in riding on the wrong side of the car tracks. Tonight an officer threatened to shoot a recalcitrant wheelman who was running amuck on the side where he ought not to be and was heedless of warnings.

Rev. Philip J. Ward of Pomona will preach at the First Baptist Church Sunday in the forenoon. The pastor, Rev. F. W. Woods, Mr. Ward is the moderator of the Los Angeles Baptist Association, and is an eloquent speaker.

The Sierra Madre people are trying to induce the Los Angeles and Pasadena electric road to extend its East Colorado-street line to Lamanda and Sierra Madre. President Smith "can't see it" just yet.

Victor Ward and Charles Grimes are to give a "sit-down" Saturday evening to the firemen, in recognition of their service in saving the Ward Block from annihilation.

The contractors for the city sprinkling will be required to use wagons having tires four inches wide on the front wheels and six inches on the rear.

The Shakespeare Club will hold its first meeting of the season Saturday evening, with a club tea from 3 to 5 o'clock.

The Ancient Order of United Workmen of this city will turn out for the picnic at Encanto Park, October 27.

Prof. A. H. Chamberlain has been elected president of the Fortnightly Club, and Albert Mercer secretary.

Miss Barnaby, one of the teachers of the Wilson school, the injured by a fall from her bicycle this morning.

A Raymond excursion party of thirteen people arrived here today and took drives about the city.

The Odd Fellows initiated two new members last night and voted in three others.

The school board is moving for a vigorous enforcement of the truancy law.

The \$400 insurance on the Prushaw house has been paid.

Not deceived. The famous log cabin candy is made only by the Hawaiian. Half price today.

SANTA MONICA.

SANTA MONICA, Oct. 6.—[Regular Correspondence.] The Anti-Imperial League of Santa Monica elected officers Thursday evening as follows: President, C. H. Ivins; vice-president, J. J. Sprackles; recording secretary, W. J. Hull; corresponding secretary, T. H. Wells; treasurer, Rev. S. H. Pratt; additional members of Executive Committee, C. A. Colmore and D. J. Twitchell. Resolutions in sympathy with the name of the organization were adopted.

LONG BEACH.

Water Under Heavy Pressure from Frigate.

LONG BEACH, Oct. 6.—[Regular Correspondence.] The Long Beach Development Company has tapped an underground stream of water under considerable pressure by sinking prospect wells. The wells are two inches in diameter and are situated on the east side of the Temescal Railway about a mile and a quarter south of the Bouton wells north of town. Two of the development company's prospect wells have been sunk to depths of 518 and 567 feet respectively. A good flow of water was developed at a depth of 300 feet, but at the present depth the flow rises above the surface and when confined shows a gauge pressure of thirty-five pounds per square inch. The company's old wells are said to yield sufficient water for the Long Beach service. The company, however, is building a reservoir on a high level, and the height to which water must be pumped from the natural flow of those wells to reach the reservoir level is considerable. It is expected that from large diameter wells sunk where the test borings have been made the water will have to be raised seventy-five feet to reach the reservoir level. It is said to be the intention of the company to keep its city mains constantly under reserve pressure. The cement work of the reservoir is practically completed, and preparations are being made for the pouring.

ALLEGED RESTRAINT OF TRADE. The case of O. H. Burbridge, charged with selling spirituous liquor at the Surf House, under the pleasure wharf, without a city license therefor, is to be taken up in the United States District Court in Los Angeles on Monday. It will be a habeas corpus proceeding. Burbridge, who is under bond, will surrender himself to the custody of the marshal, and will appear before the court that he is restrained of his liberty. The defendant's counsel, it is understood, will contend that a city ordinance limiting traffic in spirituous liquors to holders of city licenses therefor is in restraint of trade and in violation of the constitution of the United States.

NEW GUN CLUB.

The Greening Gun Club has been organized with the following named officers: President, P. E. Hatch; secretary, A. M. Goodhue; treasurer, Thomas Stovel. The club has leased a 1500-acre tract, which extends five miles north of town, between Mitchell station on the Terminal and Cerritos on the Southern Pacific. The Bixby well sunk several months ago, from which a large flow is obtained, furnishes the fresh water necessary to attract the ducks, so the clubmen will not have to wait for rain. The club has a number of Los Angeles and Pasadena men among its members.

RIVERSIDE COUNTY.

Business Men Favor Building an Auxiliary Power Plant.

RIVERSIDE, Oct. 6.—[Regular Correspondence.] An informal conference of citizens was held yesterday to discuss the proposition of erecting an auxiliary steam plant to generate electricity. William Irving acted as chairman and C. W. Barton as secretary. City Trustee Morse and Electrician Whitley explained the details of the Redlands contract, and the cost of constructing and maintaining a plant of from 200 to 400 horse power. The discussion, which was participated in by representative business men, indicated a practically unanimous sentiment in favor of an auxiliary plant, which is installed as soon as possible. An expression was taken as to the preference in raising money, as between bonds and direct taxation, resulting in a unanimous vote in favor of bonds. A committee of five—George N. Reynolds, M. J. Daniels, William Irving, George Frost and S. C. Evans, Jr.—was appointed to confer with the City Trustees.

RIVERSIDE BREVITIES.

For the season just closed, the Riverside Heights Orange Growers' Association paid out to its members \$92,482.29.

The Second Baptist Church will be dedicated with appropriate exercises on Sunday afternoon.

The first rain of the season fell here a little after midnight. Clouds came up over the mountains, there was loud thunder and much wind. Little rain fell in the business center of Riverside, but on Victoria avenue at Arlington, and in West Riverside, there was a heavy downpour lasting an hour.

The skies cleared, and the sun shined, but evening indications point to more storm.

AZUSA.

AZUSA, Oct. 6.—[Regular Correspondence.] The sale of the C. G. Richter ranch, consisting of twenty acres, mostly set in bearing orange trees, and located two miles south of Azusa, is reported. The purchaser is Mrs. Catherine McKibben, who will make her home on the place.

The Azusa Valley Sharpshooters will be represented in the Turner's tournament at Los Angeles on Saturday by a team of five men to be selected from the following eight: C. C. Casey, E. R. Jeffrey, F. A. Frye, W. Taylor, C. D. Grimes, Ed. Mace and Mr. Ayer. Much interest has been manifested in the preliminary practice this week and the team is expected to make a creditable showing.

The Belgian hare industry has obtained a foothold in Azusa. Thomas A. Sawyer has built an extensive rabbitry and will raise bunnies on a large scale.

At 3 o'clock this afternoon a shower came down from the southeast and well-comely rain is still falling.

MONROVIA.

MONROVIA, Oct. 6.—[Regular Correspondence.] Mr. and Mrs. C. E. Stoa celebrated their silver wedding at their home on Lemon avenue. About fifty guests were present. The evening was passed with progressive whist and croquet, followed with dainty refreshments.

Rev. J. C. Healy, the new pastor of the Methodist Church, has arrived with his family. The church has been unblessed for some time, and will be reopened next Sunday.

Mrs. Denlow, mother of Mrs. W. A. Crandall, died on Monday night, aged 52 years. The funeral will be held on Wednesday at 10 o'clock a.m.

Mather H. Holmes is building a new reservoir, capable of holding 300,000 gallons of water.

Rev. Mr. Wadsworth, who has accepted the call to the pastorate of the Baptist Church, has arrived with his family. He will officiate on Sunday and conduct his first service next Sunday.

The band will renew its Saturday evening concerts this week. S. W. Barnes is the new leader.

Dr. Patterson has arrived here after a four-months' stay at Lake Tahoe.

SAN DIEGO COUNTY.

Suit for Fifty Thousand Dollars Damages—Brevities.

SAN DIEGO, Oct. 6.—[Regular Correspondence.] A suit for \$50,000 was filed in the Superior Court on Thursday by Robert E. and Margaret L. Moore against the Coronado Railroad Company, as damages for injuries alleged to have been sustained by plaintiff while a passenger on one of the company's cars, February 15, 1938. The sum of \$802, alleged to have been paid for doctor's fees is also sued for.

SAN DIEGO BREVITIES.

Dr. Edward Grove of Cleveland, O., and Miss Ynes Bradshaw, daughter of Mr. and Mrs. N. Bradshaw, were married Thursday at high noon. The ceremony was performed at the home of the bride's parents, by the Rev. A. L. Mitchell. Following the wedding breakfast, Mr. and Mrs. Grove left for the afternoon train for their eastern home.

A number of bicyclists have been arrested the past few days, for riding on the sidewalks. Judge Anderson imposed small fines on each of them, and states that hereafter the maximum fine of \$10 will be imposed.

E. D. Morrison, Grand Overseer of the O. W. U., came to San Diego on Thursday, to attend the initiation of fifty-two members by Point Loma Lodge, in the afternoon.

Rev. Clay of Jamul was thrown from a vehicle by a runaway horse in this city on Wednesday and severely bruised and cut.

CORONADO BEACH.

HOTEL DEL CORONADO, Oct. 6.—[Regular Correspondence.] Rev. George E. Kethley and Gen. Churchill spent a few hours at surf fishing Thursday afternoon, and returned to shore laden with a fine string, including halibut, black crabs, and other fish. Among the fish was a large smelt. It was the best surf catch made since Edwin A. Meserve, Esq., of Los Angeles made his big haul.

Randolph C. Surbridge of Boston, Mass., and Col. Charles B. Boynton of New York City, returned last evening on the Santa Ana.

Mr. and Mrs. Gummann of Berlin, Germany, who are spending a year's vacation in California, arrived yesterday's arrivals at Hotel Del Coronado. They will remain in California for some weeks.

SANTA BARBARA COUNTY.

A Call for Republican Primaries.

SANTA BARBARA, Oct. 6.—[Regular Correspondence.] At a meeting of the Common Council last evening a call was issued for the holding of Republican city primaries. Each of the seven wards under the new city charter will elect nine delegates to a Republican caucus, to be held on November 1st. A Socialist ticket is out now. All other candidates will run independently.

LANDING THE LEMON CROP.

The lemon crop is the crop of the hour, all through the southern part of the county. Picking and packing have been going on for some time, but the crop is now practically at its height. In the Montecito Valley there are five large commercial business men, indicated a practically unanimous sentiment in favor of an auxiliary plant, which is installed as soon as possible.

An expression was taken as to the preference in raising money, as between bonds and direct taxation, resulting in a unanimous vote in favor of bonds. A committee of five—George N. Reynolds, M. J. Daniels, William Irving, George Frost and S. C. Evans, Jr.—was appointed to confer with the City Trustees.

The Southern Pacific Company has purchased a right-of-way for a wagon road through the Bell Cañon rancho, and when the road is completed will give it to the county.

A heavy fall across the cañon the road formerly used is made dangerous and awkward. It is a very fair one.

For almost two months there have been heavy fogs in the valley at night. The moisture from these has increased the yield fully 20 per cent.

About one hundred and fifty men are engaged in packing the lemons for shipment. Besides these men, there are hundreds of men employed upon the various ranches in the cultivation and trimming of the trees, and in picking fruit. The industry is growing year by year as the young trees become larger.

ORANGE COUNTY.

A Charge of Attempted Corruption Regarding Courthouse Plans.

SANTA ANA, Oct. 6.—[Regular Correspondence.] With the adoption of Parkinson and Bradshaw's plans for the new courthouse in this county comes a story that an effort was made to bribe two members of the Board of Supervisors by a man who claimed to be a representative of the successful architects. The story comes from none other than John Snover, a member of the Board of Supervisors, and the man to whom it is alleged the offer was made. Mr. Snover asserts that on Wednesday morning of this week he was offered the sum of \$400 if he would cast his vote for the plans of Parkinson and Bradshaw, and he further states that W. G. Potter, another member of the board who did not vote for the Parkinson and Bradshaw plans.

Mr. Snover states that at the proper time will name the individual who came to him with the offer of money for his vote.

SANTA ANA BREVITIES.

The infant of Mr. and Mrs. Walter Neal of this city died yesterday, and was buried today.

The arraignment of Mrs. Katie Cook on the charge of killing her husband by poison was postponed today to October 10, because of the illness of the accused. Mrs. Cook's condition has not yet sufficiently improved to admit of her being taken to court.

Superior Judge Ballard today appointed J. A. Turner administrator of the estate of the late A. H. Holcomb.

Rain fell in the habit of taking the girl to the park every afternoon on her arrival from school, and denied that anything wrong had passed between them.

Matron Gray took the girl into a separate room and closely questioned her, but she strenuously denied that the old man had taken improper liberties with her. In view of the girl's denial it was deemed useless to attempt to prosecute the case, and both prisoners were released.

As the two left the Police Station Officer Wilson started to see the girl's mother. He arrived at the home of the girl ahead of the girl, and on interviewing her mother, the woman at first denied that any such girl lived there. When the girl and her grandfather arrived, however, and the mother heard their stories, she soundly rebuked the officer for what he had done, declaring that her girl was perfectly able to take care of herself.

The mother informed him that she did not care to keep the country market active. Since Schilling's capture, occasional reports have been received at the Police Station complaining of visits from chicken thieves, but the largest haul made since Champion Schilling's retirement was reported yesterday.

ACTED SUSPICIOUSLY.

An Old Man and a Girl Arrested by Police Officer Wilson.

Late yesterday afternoon Special Officer Wilson of Westlake Park saw an old man and a young girl who were acting in a suspicious manner, and he decided to watch the pair. They wandered off among the shrubbery and Wilson followed. After keeping them under surveillance for some time, Wilson discovered that another man was also observing their actions. The second man proved to be C. Houser of No. 2220 Hunter street. Wilson remembered a former experience when he failed to secure the conviction of an old man whom he caught under similar circumstances, on account of the absence of witnesses, so he asked Houser to stay with him.

Wilson and Houser watched the two for some time, during which the officer says, they saw the old man take improper liberties with the girl, and heard her remonstrances. Finally they wandered to the boat house, near which time the girl was seen to be served by the keeper of the boat house, who also heard the girl remonstrating with the old man. The girl left her seat several times as if angry, but soon returned.

Officer Wilson telephoned the facts in the case to the Police Station, and was told to take the man and girl into custody. On arriving at the jail the prisoners were ushered into the headquarters of the detectives, where the old man said he lives at the Soldiers' Home, but that he is off on a thirty-day furlough.

The girl, he said, is his granddaughter, and lives with her mother and grandmother. He said that he has been in the habit of taking the girl to the park every afternoon on her arrival from school, and denied that anything wrong had passed between them.

Matron Gray took the girl into a separate room and closely questioned her, but she strenuously denied that the old man had taken improper liberties with her. In view of the girl's denial it was deemed useless to attempt to prosecute the case, and both prisoners were released.

The program for the evening will be Miss C. M. Williams, who will speak upon some changes in the philosophy of thought necessitated by the scientific theory of evolution.

UNIVERSITY NOTES.

Theological College Closed—University Trustees Organize.

A resolution has been adopted by the board of trustees to the effect that the main closed until its endowment provides sufficient income for its support.

The Executive Committee will hold a meeting on Tuesday, October 10, to make provision for the instructors assigned by the recent Methodist conference to chairs in the Academy College.

The members of the Aristotelian Literary Society of the college are excited over the actions of some miscreants who have broken into their handsomely-furnished meeting hall on the third floor of the college building, breaking chairs and tables, and destroying other furnishings. A committee on investigation has been appointed and an effort will be made to bring the marauders before the college authorities for punishment.

The Tennis Association met yesterday and elected officers: E. H. Miller, president; F. W. Abbott, vice-president; Ernest Yerxa, secretary; W. R. McAllep, treasurer. The membership has been largely increased. Improvements to the courts are planned. A tournament, open to Southern California players, is in prospect.

E. R. Baumgardt delivered the first lecture in the course arranged for the lecture in lecture-room 19 at the college at 2 p.m. yesterday. Subject: "The Knowable and the Unknowable in Herbert Spencer's Philosophy." Other lectures in the series will be given on subsequent Friday afternoon.

The young ladies of the Athena Literary Society gave a pleasant reception to new members yesterday afternoon in their society hall.

A practice game of football will be played on the University campus this afternoon at 2 p.m. between the freshman eleven of the college and a team from the Eton Preparatory School.

The pupils of the school of music gave a recital in the college chapel the afternoon of Wednesday, October 4.

D. M. Welch and wife of No. 1129 West Twenty-ninth street, have returned after four months' visit in New Haven, Conn., Boston and other eastern cities.

TURNFEST OPENS TODAY.

Annual Athletic Carnival Will Last Three Days.

The annual turnfest of the fifth district of Southern California will open today, and a programme has been arranged to cover three days. The San Diego delegation arrived last night, and was met at the depot by local Turner and given a formal welcome at Turner Hall. Following is the programme:

Saturday, Oct. 7, 11 a.m.—Reception of visiting Turners at Santa Fe depot, march to the hall, address of welcome by Dr. H. Newland, 2:30 p.m.—Trip to East Side Park by electric car; prize shooting at the range in East Los Angeles, 8 p.m.—At the hall, addresses by Mayor Fred Eaton, H. Ewald of San Diego and Dr. H. Newland of Los Angeles; gymnastic entertainment, prize recitation and singing.

Sunday, Oct. 8.—Gymnastic competition for prizes all day at Verdugo Park. Monday, Oct. 9.—Excursion to Mt. Lowe; special train leaves Terminal depot at 9:30 a.m. Grand ball at district hall on corner of Broadway and Main street, 10 p.m.—Dance at Turner Hall.

Following is the programme for the rifle tournament to be held at the Turner's rifle range, East Los Angeles, today:

Team shoot, 9 a.m.—Five men to comprise a team; open to any organized rifle club; conditions: Ten shots per man at German ring target, 200 yards; any club may enter one or more teams. Merchandise shoot (reentry): Ring target, three-shot ticket; three best tickets to count.

Bullseye pool; Blunt's target, 200 yards.

Forest Exploration.

The Forest and Water Association had in contemplation the thorough exploration and mapping of the four-square reserve, but owing to the shortage of funds has not been able to send out a properly-equipped engineering and surveying party. However, the students of the forestry branch of the University of Southern California volunteered to do this work, the association arranged for J. H. Nicol and C. C. Mearns to go into the San Gabriel forest and make a thorough report on the varieties of timber and brush growing in the forest reserve, reporting the growth of each quarter-section of the territory investigated; also noting the best possible points for starting replanting. Their reports have been submitted.

Crops in Porto Rico.

The climate and crop bulletin of the Porto Rico section of the Weather Bureau, United States Department of Agriculture, for the week ended September 16, shows the general conditions in the island to be favorable. The rains have been light and considerable activity was evinced in field work. The debris is being cleared from the coffee lands, and the ground prepared for tobacco and cane. Some of the cane damaged by the flood has been ground. The outlook for agriculture is favorable.

First in the Field.

A dispatch from San José, published Thursday said the first Sunday-school Superintendents' Association in California was organized there on October 4. San José is mistaken. Such an association was organized in Los Angeles four months ago. C. G. Baldwin is president, and meetings are held monthly. Three such meetings have been held since the organization was perfected.

Dr. Johnson's Misadventures.

Dr. West Hughes has received a letter from Dr. Johnson, who was supposed to have been lost in the Sierra Nevada. Dr. Johnson writes from Kernville that he was detained in the mountains by a series of mishaps and by the illness of Mrs. Martin, caused by exposure in a storm. Dr. Johnson has not been ill. He expects to be in Los Angeles next week.
